Forward

Along the highways of Burma there is placed at regular distances away from the dust of the road and under the cool shade of a group of trees a small wooden building called a "rest-house" where the weary traveller may rest a while and allay his thirst and assuage his hunger and fat gue by partaking of the food and water which the kindly innkeepers place there as a religious duty

Along the great highway of life there are such resting places, away from the heat of passion and the dust of disappointment, under the cool and refreshing shade of lowly Wisdom are the humble unimposing "rest houses" of peace who the little almost unnoticed byways of blessedness where alone the weary and footsore can find strength and healing

Nor can these byways be ignored without suffering Along the great road of life hurrying and eager to reach some illusive goal presses the multitude despising the apparently insignificant "rest-houses" of true thought not heeding the narrow little byways of blessed action which they regard as unimportant, and hour by hour men are [illegible] and [illegible] and [illegible]

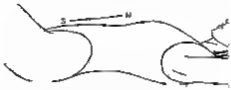
NEUTRAL SPINE

Visualize a large weight on your stomach. Let it press your stomach flat. Now visualize a mattress button in your naval with a string running through your body to your spine. Tighten the string, pulling your navel toward your spine. While doing this, keep the coccyx bone (tail bone) anchored to the mat. In other words, do not tuck or tilt the pelvis. Imagine a cup of tea sitting on your lower abdomen and you do not want the tea to spill.

Lie on your back with your knees bent, neck long, feet long, elbows open and your hands resting on your abdomen. Imagine that there is a compass resting on top of your abdomen.

Tilt your pelvis, using the abdominal muscles, so that the focal point is on 'North'. The waist is flattened, the curve lost.



Now tilt your pelvis so that it is pointing to the South. The low back is over-arched.

Repeat several times, and then find the neutral position between North and South, the pelvis being tilted neither way but balanced in the middle. The same applies to West and East – tilt the pelvis in each direction, and then find that neutral position. The natural curves are maintained.

You must return to work full-time for a period of at least ninety (90) calendar days before you are eligible for another maximum period of leave, regardless of the medical reason for the leave. For example, if you have three years of service, have been on leave for a period of four months, and then you return to work full-duty for one day before beginning another leave, you would be eligible for a maximum of two more months of leave even if the second leave is for a different medical condition.

3 Americans with Disabilities Act

At any point during your leave, you may apply for an accommodation under the Americans with Disabilities Act (ADA). If you are a qualified individual with a disability and you and your medical provider believe that a reasonable accommodation would enable you to perform the essential functions of your job, Additionally, intermittent leave may be available as an accommodation under the ADA. For more information about an ADA accommodation, please contact your human resources manager.

A look at three top S&P ETFs

The biggest S&P-tracking ETF is the **SPDR S&P 500** (NYSEMKT: SPY) affectionately known as the Spiders. It was the first exchange-traded fund product to gain widespread use and it's now a giant in the industry with $140 billion under management. Its expense ratio is 0.09%, and with average volume of about 133 million shares daily the Spiders trade $22 billion worth of shares each day -- meaning it takes less than seven days for the entire outstanding share-count to turn over.

Much smaller is the **iShares Core S&P 500 ETF** (NYSEMKT: IVV). With about $43 billion under management, the iShares ETF comes with lower expenses at 0.07%, but much lower average daily volume of just 3.8 million shares. Like the Spiders, its share price roughly corresponds to a tenth of the value of the S&P 500 index.

Finally, the **Vanguard S&P 500 ETF** (NYSEMKT: VOO) rounds out the major S&P ETFs. Unlike the other two ETFs, its share price bears no resemblance to the index's actual value. With less than $10 billion under management and barely 1.1 million shares trading hands each day, it's also the least liquid of the three ETFs. Yet its expense ratio of 0.05% is also the lowest of the three.

Packer to sell family farm assets: report

Jano Gibson
December 30, 2008

FIRST it was his late father's media empire, and now it is his cattle stations.
James Packer is reportedly trying to sell off some of the favourite assets of his father, Kerry Packer - the vast cattle ranches across northern Australia where Packer use used to enjoy fishing and pig shooting from his helicopter.
The *Australian Financial Review* reports that Mr Packer is in advanced negotiations with the private equity group Terra Firma of London to offload his 50 per cent stake in Consolidated Pastoral Company. The asking price for the company, which controls 17 cattle stations in Australia, was $425 million, the paper said.
The Consolidated Pastoral Company was formed in 1983 when the flagship Newcastle Waters Station in the Northern Territory was bought.
Since then other stations in the Northern Territory, Western Australia, Queensland and NSW have been added, bringing to 5 million hectares the amount of land the company owns.
The chairman, Ken Warriner, a close friend of the late Mr Packer, is reportedly planning to retain his 10 per cent share in the company. Mr Warriner's son, Geoff Warriner, declined to comment on the report.
The late Mr Packer thoroughly enjoyed spending time on the stations with Ken Warriner.
"It is one thing that Kerry really liked about it, compared to television," Mr Warriner once said. "He said 'You guys tell each other everything. You've got nothing to hide - it's all open.' He had a lot of time for the people in the north because they copped it pretty tough."
A spokesman for Terra Firma did not return the *Herald*'s calls. The *Herald* was unable to contact Mr Packer about the report.
Over the past two years Mr Packer has sold off almost all of his family's share of traditional media assets, including the Nine Network and Australian Consolidated Press magazines.

Rabbits on the Run

A couple of rabbits were being chased by a pack of wolves. The rabbits ran into a briar patch to hide.

After catching his breath, the male rabbit asked the female rabbit, "Should we try to sneak away or just stay here till we outnumber them?"

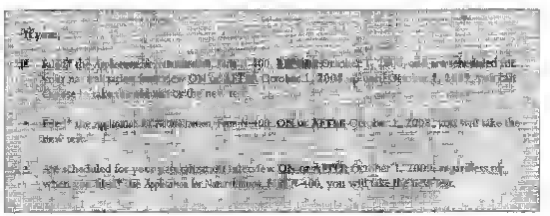
IMPORTANT NOTICE FOR NATURALIZATION APPLICANTS

On October 1, 2008, USCIS began administering a new naturalization test.

The enclosed booklet *Learn About the United States: Quick Civics Lessons for the New Naturalization Test, Form M-638* (rev 02/09) has study materials for the new naturalization test. The new test will be administered in the same manner as the old test. Only the content has changed. To determine whether you will take the old test or the new test, please use the guidelines below.



If you will take the old test you only need to study the document entitled, **Sample U.S. History and Government Questions for the Old Naturalization Test**, which is directly underneath this cover sheet.

If you will take the new test you only need to study the enclosed booklet, ***Learn About the United States. Quick Civics Lessons for the New Naturalization Test, Form M-638 (rev 02/09)***

NOTE If you fail the English and/or civics test during the first exam you will be required to take the same version of the test (old or new) when you are retested, even if the retest is scheduled on or after October 1, 2009.

* The *Application for Naturalization, Form N-400* is properly filed with USCIS on the date it is received by the appropriate USCIS location with signature, correct fee, and the form is completed according to instructions.

Family and Medical Leave Act (FMLA) Medical Certification Form

FMLA is a federal law that guarantees "eligible" employees up to twelve (12) work weeks of job-protected absence for certain family and medical reasons. You are eligible to request an FMLA absence if you have worked for the company for at least one year, worked a minimum of 1250 hours over the previous twelve (12) months, and need to be absent for one of the following reasons:

- A serious health condition that makes you unable to perform any one of the essential functions of your job
- To care for your immediate family member (spouse, child, or parent) who has a serious health condition.
- To care for your newborn child, or placement of an adopted or foster child

Family and Medical Leave Act Definitions for Health Care Providers as defined by the Department of Labor's Regulations

Activities of daily living (ADLs). Examples include adaptive activities such as eating appropriately for one's grooming and hygiene, bathing, dressing and eating

Health Care Provider (HCP): Authorized health care providers include any of the following who are authorized to practice under State law and who are practicing within the scope of that practice: doctors of medicine or osteopathy, podiatrists, dentists, clinical psychologists, optometrists and chiropractors (limited to manipulation of the spine to correct a subluxation as demonstrated by X-ray), nurse practitioners, nurse midwives, clinical social workers, and any other person determined by the Secretary of Labor to be capable of providing health care services.

Incapacity: The inability to work, attend school or perform regular daily activities due to the patient's serious health condition, treatment for that condition, or recovery from that condition.

Instrumental activities of daily living (IADLs): Activities include cooking, cleaning, shopping, paying bills, maintaining a residence, using a post office and telephone.

Regimen of Continuing Treatment: Treatment including, for example: a course of prescription medication (e.g., an antibiotic) or therapy requiring special equipment to resolve or alleviate the health condition. A regimen of treatment does not include the taking of over-the-counter medications such as aspirin, antihistamines, or salves; or bed-rest, drinking fluids, exercise, and other similar activities that can be initiated without a visit to a health care provider.

Tests and in-class writing may be made up upon instructor approval only.

Attendance, Absences, and Tardies

Discussions and review sessions cannot be made up. More than four absences could be grounds for being dropped from the class. If you must miss a class session, call or email me – preferably in advance, and then contact a classmate to get notes, handouts, and assignment sheets. If you are unavoidably late for class, please enter the room quietly and join the classroom activity. If you must leave class early for some reason, please speak with me before class.

Plagiarism

Plagiarism will not be tolerated and will result in a failing grade in this course, and could result in dismissal from the college. It is your responsibility to pay attention.

Hail Mary:

Today begins the 90th Anniversary of the apparition of the Virgin of Fatima :

When you receive this email say a Hail Mary and ask for a special favor.

"Hail Mary, full of grace. The Lord is with thee. Blessed art thou among women and blessed is the fruit of thy womb, Jesus. Holy Mary, Mother of God, pray for us sinners, now and at the hour of our death, Amen.? (your request)

Please do not break the Novena , send it to 12 people you think deserve justice, peace, love, health, prosperity and truth. When you are down to nothing, God is up to something. This has been traveling since 5/13/07!

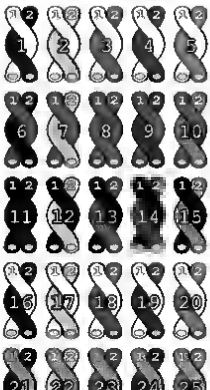
25-pair color code

From Wikipedia, the free encyclopedia

The **25-pair color code** is a color code used to identify individual conductors in a kind of electrical telecommunication wiring for indoor use, known as twisted pair cables (often seen with RJ21 cables). The colors are applied to the insulation that covers each conductor. The first color is chosen from one group of five colors and the other from a second group of five colors, giving 25 combinations of two colors.

- The first group of colors is, in order: *white, red, black, yellow, violet*
- The second group of colors is, in order: *blue, orange, green, brown, slate*

The 25 combinations are shown to the right in the image. The combinations are also shown in the table below showing the color for each wire ("1" and "2") and the pair number.



Red Hot & Blue painstakingly slow-smokes the finest cuts of meat over hickory logs for hours for your enjoyment
Red Hot & Blue also guarantees we are serving quality food items that have been prepared and delivered to you safely.

If you and your guests simply can't take another bite of our smoked meats and lip smackin' sides Red Hot & Blue offers the following proper handling and reheating suggestions for your safety.

- If your food has been sitting out at room temperature for 4 hours or longer discard immediately
- If not refrigerate at 40 degrees or below until you are ready to enjoy
- To reheat meats, heat slowly in a conventional oven at a 225° setting until product reaches an internal temperature of 165°
- 5 lbs & under 30-45 minutes
- 6-10 lbs 45-60 minutes
- To reheat in a microwave place meats in a microwave safe dish and heat until product reaches an internal temperature of 180°
- Discard any leftover food items two days following your event date

Thank you, thank you very much!

Title

I am using Voice Over Internet Protocol (VoIP) and cannot send and/or receive faxes. What can I do?

Description

There are many environmental parameters which can affect FAX over VoIP communications. Although Voice over Internet Protocol (VoIP) is not a metered feature of your Brother machine, there are several factors that affect the ability to send and receive faxes successfully when using this service.

Dear [redacted]

The new year brings new things, and I'm excited to announce that the nation's fastest mobile broadband network is getting faster with 4G.*

Innovation. Every day

Stronger connections. Faster access to your favorite content. The AT&T mobile broadband experience is evolving. 4G is coming soon to several areas around the country and will provide innovative solutions to deliver a smoother, more consistent mobile broadband experience. **Remember, AT&T's mobile broadband network lets you talk and surf the Web on your phone at the same time** — so you can keep the conversation going when you need to.

Always moving forward.

Our network is evolving. AT&T's already fast mobile broadband network is getting faster with speeds up to 4X faster in 4G areas. Also, by offering industry-leading devices and providing great plans and resources, we're doing everything we can to keep you connected with those who matter most.

Thank you for trusting AT&T with every connection you make. If you have questions or would like to learn more about 4G from AT&T, please visit att.com/mynetwork.

Sincerely

Mark Collins

Mark Collins
Sr. Vice President, Data and Voice Products

*4G speeds are delivered when HSPA+ technology is combined with enhanced backhaul. 4G speeds will be available in limited areas around the country with availability increasing with ongoing backhaul deployment. 4G speeds require a 4G device.

WHAT HAPPENS NOW?

Begin weekly certification the following week after filing for unemployment. You will be required to establish a Personal Identification Number (PIN) before you are able to certify. Your PIN must be entered each week as you continue the weekly certification.

If you are not able to access your account online for certification you will need to complete your first certification by telephone.

Certify online

https://uitn.gov/ Click on "Weekly Certification"

Certify by phone:

(615) 532-1600 (800) 088 9780 or (800) 862-8094

Certify on Sunday or Monday

If the last digit of your Social Security Number is 0, 2, 4, 6, 8, your assigned day to certify is Sunday. If it is 1, 3, 5, 7 or 9, your assigned day is Monday.

REQUIRED READING.

You will not receive a payment for unemployment insurance benefits if you do not read and follow these instructions. Failure to read and follow the instructions will result in a delay or loss of benefits.

You must access and read the Guide to Receiving U.I. Benefits

This guide fully explains your rights and responsibilities when filing for and receiving unemployment insurance benefits.

☐ An "X" in this box indicates you had more than 4 employers in the base year. Employers not listed on this form are shown on another form mailed under separate cover.

☒ An "X" in this box indicates this is a monetary redetermination based on the receipt of supplemental information. This may result in a refund liability for any benefits paid.

IMPORTANT NOTICE TO CLAIMANT (additional information on reverse)

This determination refers to monetary validity. Benefits are payable only if you meet all eligibility requirements for each week that you are claiming benefits. If you were separated from employment for reasons other than lack of work, a separate determination will be issued.

If "X" has been entered in Item 2, it means that your claim is INVALID and you are INELIGIBLE to receive benefits because, within the Base Year Period shown in Item 5a, you had no employment covered by the Unemployment Compensation Law of New Jersey, fewer than 20 Base Weeks and you earned less than $ 7,000.00 Total Wages OR you did not meet "re-qualifying requirements" (see reverse for explanation).

A dependency allowance cannot be included in the monetary determination until you provides proof of dependency. If you have provided the required proof of the Weekly Benefit Rate in Item 2, includes your dependency allowance listed in Item 5. If you have not already provided proof of dependency, you must provide such proof with in six weeks of the date of claim (eight weeks for interstate claims) shown in Item 7. If you do not do so, you will be ineligible to receive dependency benefits for the duration of the claim. Interstate claims) shown in Item 7. If you do not do so, you will be ineligible to receive dependency benefits for the duration of the claim. Interstate claimants, otherwise the rule apply if you are receiving the maximum benefit rate.

If your earnings were not correctly reported by your employer(s), or if all of your base year employers are not listed on the form(s), you should notify the local claims office listed at the top of this form within 10 days from the date of mailing in Item 7. If you have already done the claims agent of missing or disputed wages, you should receive a revised monetary determination within 21 days, please notify the local office listed at the top of this form with proof of earnings for the missing/disputed wages.

RIGHT OF APPEAL / TERMINO DE APELACION

If you disagree with this determination you may file an appeal in writing with the local claims office listed at the top of this form. Your appeal must be received or postmarked within seven days after delivery or ten days after the date of this notice as shown in Item 7. The appeal period will only be extended if good cause for late filing is shown.

Si usted no está de acuerdo con esta determinación, Ud. puede apelar por escrito a la oficina local por desempleo mencionada en el primer encabezado de este formulario. Su apelación tiene que ser recibida o sobremarcada por el correo dentro de siete días después de la fecha de esta notificación o dentro de diez días a partir de la fecha que aparece en el encabezado

Periodontal Screening and Recording: Early Detection of Periodontal Diseases

Tanya Villalpando Mitchell, RDH, MS

Continuing Education Units: 1 hour

This continuing education course is intended for general dentists, dental hygienists, dental students and dental hygiene students. Periodontal Screening and Recording (PSR) is a rapid method of screening patients to decide if a more comprehensive assessment is necessary. After taking this course the participant will understand the benefits of the PSR system, identify who should be screened for periodontal problems, discuss the PSR system scoring and understand how it works, recommend treatment based upon the code interpretations, and discuss the PSR system with patients.

The copy machine in the back left corner operates as a fax machine. Or have customers scan needed docs to your email in the meantime.

Thanks!

Amendment XV

Passed by Congress February 26, 1869. Ratified February 3, 1870.

SECTION 1

The right of citizens of the United States to vote shall not be denied or abridged by the United States or by any State on account of race, color, or previous condition of servitude.

SECTION 2

The Congress shall have the power to enforce this article by appropriate legislation.

Amendment XVI

Passed by Congress July 2, 1909. Ratified February 3, 1913.

(Note: Article I, Section 9 of the Constitution was modified by the 16th Amendment.)

The Congress shall have power to lay and collect taxes on incomes, from whatever source derived, without apportionment among the several States, and without regard to any census or enumeration.

Amendment XVII

Passed by Congress May 13, 1912. Ratified April 8, 1913.

(Note: Article I, Section 3 of the Constitution was modified by the 17th Amendment.)

The Senate of the United States shall be composed of two Senators from each State, elected by the people thereof, for six years; and each Senator shall have one vote. The electors in each State shall have the qualifications requisite for electors of the most numerous branch of the State legislatures.

When vacancies happen in the representation of any State in the Senate, the executive authority of such State shall issue writs of election to fill such vacancies: Provided, That the legislature of any State may empower the executive thereof to make temporary appointments until the people fill the vacancies by election as the legislature may direct.

This amendment shall not be so construed as to affect the election or term of any Senator chosen before it becomes valid as part of the Constitution.

Amendment XVIII

Passed by Congress December 18, 1917. Ratified January 16, 1919. Repealed by the 21st Amendment, December 5, 1933.

SECTION 1

After one year from the ratification of this article the manufacture, sale, or transportation of intoxicating liquors within, the importation thereof into, or the exportation thereof from the United States and all territory subject to the jurisdiction thereof for beverage purposes is hereby prohibited.

SECTION 2

The Congress and the several States shall have concurrent power to enforce this article by appropriate legislation.

SECTION 3

This article shall be inoperative unless it shall have been ratified as an amendment to the Constitution by the legislatures of the several States, as provided in the Constitution, within seven years from the date of the submission hereof to the States by the Congress.

Amendment XIX

Passed by Congress June 4, 1919. Ratified August 18, 1920.

The right of citizens of the United States to vote shall not be denied or abridged by the United States or by any State on account of sex.

Congress shall have power to enforce this article by appropriate legislation.

Witnesses were stunned, startled, aghast, taken aback, stupefied.

WARNING! ENTERING THE PUN ZONE!

The story of Mary Poppins as a nanny is well known. Less well-known is her subsequent tale.

She traveled to Hollywood, where she opened a shop on Sunset Boulevard as a fortune-teller. Of course we already know she has supernatural powers, so it's no surprise that she was quite skilled in fortune-telling, and her reputation grew rapidly.

She continued to tell fortunes, and found that in particular, she always received a very strong premonition whenever someone was about to have an onset of bad breath. Her predictions of this turned out to be accurate 100% of the time. In order to publicize her success at this, she had a large sign placed above her door, which read: Super California Mystic Expert Halitosis.

William's wife started noticing how forgetful he was becoming. Being the concerned wife, she convinced him to see a doctor. William was a little worried when the doctor came in. Sensing his patient's nervousness, the first thing the doctor did was to ask what was troubling him.

"Well," William answered, "I seem to be getting forgetful. I'm never sure I can remember where I put the car, or whether I answered a letter, or where I'm going, or what it is I'm going to do once I get there. If I get there. So, I really need your help. What can I do?"

The doctor thought for a moment, then answered in his kindest tone.."Please pay me in advance."

TODAY IN TRIVIA: What was Mr. Ed's real name? Television's Mr. Ed was played by a horse named Bamboo Harvester. The voice was supplied by Allan Lane.

General Tso's Chicken

By Fuchsia Dunlop YIELD 2 to 3 servings TIME About 40 minutes

INGREDIENTS

FOR THE SAUCE:

1 tablespoon double-concentrate tomato paste, mixed with 1 tablespoon water

1 tablespoon rice wine

½ teaspoon potato flour or cornstarch

½ teaspoon dark soy sauce

1 ½ teaspoons light soy sauce

1 tablespoon rice vinegar

3 tablespoons chicken stock or water

FOR THE CHICKEN

12 ounces (about 4 to 5) skinless, boneless chicken thighs

½ teaspoon dark soy sauce

2 teaspoons light soy sauce

1 egg yolk

2 tablespoons potato flour

1 quart peanut oil, more as needed

6 to 10 dried red chilies

2 teaspoons finely chopped ginger

2 teaspoons minced garlic

2 teaspoons sesame oil

Scallions, thinly sliced, for garnish

PREPARATION

Step 1

Make the sauce by combining all the ingredients in a small bowl. Set aside.

Step 2

To prepare the chicken, unfold the chicken thighs and lay them on a cutting board. Remove as much of the sinew as possible. (If some parts are very thick, cut them in half horizontally.) Slice a few shallow crosshatches into the meat. Cut each thigh into roughly 1/4-inch slices and place in a large bowl. Add the soy sauces and egg yolk and mix well. Stir in the potato flour and 2 teaspoons peanut oil and set aside. Using scissors, snip the chilies into 3/4-inch pieces, discarding the seeds. Set aside.

Step 3

Pour 3 1/2 cups peanut oil into a large wok, or enough oil to rise 1 1/2 inches from the bottom. Set over high heat until the oil reaches 350 to 400 degrees. Add half the chicken and fry until crisp and deep gold, 3 to 4 minutes. Using a slotted spoon, transfer the chicken to a plate. Repeat with the second batch. Pour the oil into a heatproof container and wipe the wok clean.

Step 4

Place the wok over high heat. Add 2 tablespoons peanut oil. When hot, add the chilies and stir-fry for a few seconds until they just start to change color. Add the ginger and garlic and stir-fry for a few seconds longer until fragrant. Add the sauce, stirring as it thickens. Return the chicken to the wok and stir vigorously to coat. Remove from the heat, stir in the sesame oil and top with scallions. Serve with rice.

- Failure to submit a Self-Certification Affidavit, and if required a medical examiner's certificate will result in the downgrade of your CDL to a non-commercial driver license. **Once downgraded, you must complete all knowledge and driving tests to reinstate your CDL.**

Remember your driving record is your personal driving history so it is a good idea to check your record occasionally to make sure that no incorrect information was reported.

Driver Responsibility Program (DRP)

This program was developed to encourage safe driving habits and requires DPS assess surcharges to individuals based on certain traffic offenses. These surcharges are assessed in two ways: a point system and conviction based.

- Points are assessed for Texas or out of state moving violation convictions: two (2) points for a conviction, and three (3) points for a conviction that resulted in a crash. Individuals are assessed a point surcharge annually if they maintain six (6) or more points on their driver record.
- A Conviction-based surcharge is a result of being convicted of Driving While Intoxicated, No Driver License, Driving While License Invalid, and No Insurance. Points are not assessed for these specific offenses. A conviction based surcharge will be assessed annually for three (3) years from the date of conviction. An individual can also pay all three (3) years in advance. DPS also offers programs that may reduce or waive surcharges. For more information about DRP, please visit: http://www.dps.texas.gov/DriverLicense/drp.htm To check your driver status please visit: https://txapps.texas.gov/txapp/txdps/dlelig/dlstatus.jsp Please note: Surcharges are in addition to other fees and do not replace a suspension, revocation, denial, disqualification or cancellation resulting from the same conviction.

If you have questions or need to make special arrangements to accommodate a disability, prior to visiting a driver license office, please email us using our secure website at www.dps.texas.gov/contact.htm or call us at (512) 424-2600.

The Evolution Path of 4G Networks: FDD or TDD?

Peter W. C. Chan, Ernest S. Lo, Roy R. Wang, Edward K. S. Au, Vincent K. N. Lau, Roger S. Cheng, Wai Ho Mow, Ross D. Murch, and Khaled Ben Letaief, The Hong Kong University of Science and Technology

Abstract

Frequency-division duplexing and time-division duplexing are two common duplexing methods used in wireless wireless systems. However these two advantages and technical issues associated with them. In this article we discuss in detail the features, and the design and implementation challenges of FDD and TDD systems for 4G wireless systems. In particular we present a number of advantages and disabilities an TDD system can bring to 4G systems has an FDD system can overcome and identify the major challenges to address and identify the major challenges in applying TDD in practice Due to the fact that cross-slot interference is one of the critical challenges to employing TDD in cellular networks, we also provide a quantitative analysis on its impact on an abnormal and adjacent abnormal interfering cells.

Introduction

Achieving high spectral efficiency and macroscopic coverage with guaranteed quality of service for real-time applications has been the challenging goal of the fourth-generation (4G) cellular network. There are a lot of research activities on the physical layer and multiple access schemes to enhance the spectral efficiency of 4G systems. For example orthogonal frequency-division multiplexing access (OFDMA) [1] multiple input multiple-output (MIMO) orthogonal technology as well as cross layer optimization [1] are considered the core technologies in 4G systems to boost spectral efficiency and at the same time offer robust communications over frequency selective fading channels. On the other hand, the choice of duplex mode — frequency-division duplex (FDD) or time-division duplex (TDD) — is relatively neglected topic in fact, as we will stress in this article that there advantages and inherent challenges to both the FDD and TDD modes. For FDD the uplink and downlink signals are separated by different frequencies, and it requires paired spectrum. For voice applications, the uplink and downlink traffic is symmetric, hence FDD uses efficient duplexing mode commonly adopted in 2G and 3G cellular systems [1]. For TDD, the uplink and downlink signals are separated in time; it offers the flexibility of unpaired bandwidth and uplink [2]. However TDD faces some critical challenges for macrocell coverage which we explain in this article, and is currently used in hotspot applications (e.g., time-division synchronous code division multiple access, TDS-CDMA [3]) only. Nevertheless it is expected that for future-generation networks, the downlink traffic may dominate for various multimedia applications such as video streaming and interactive Web browsing [2]. Due to its flexibility in unpaired spectrum allocation and traffic asymmetry between the uplink and downlink TDD has received increasing attention in next generation cellular systems such as WiMax and IEEE 802.20 [1].

In this article we discuss in detail the features, and the design and implementation challenges of FDD and TDD systems for 4G wireless systems. Specifically, we highlight the advantages and disabilities TDD system can bring to the 4G systems (which an FDD system cannot offer) and identify the major technical challenges associated with them. In applying TDD in practice. A quantitative analysis on TDD network engineering parameters on co-channel interference and adjacent channel interference of 4G is given. Finally we give a brief survey of the potential solutions on cross-slot interference in TDD systems according and time-slot grouping.

The Frequency-Division Duplexing System

FDD systems allocate different frequency bands for uplink (UL) and downlink (DL) transmissions. In spectrum allocation the UL channels and DL channels are usually grouped into two blocks of contiguous channels (paired spectrum) that are usually separated by a guard band of a number of vacant radio frequency (RF) channels [4] for interference avoidance. Figure 1a illustrates a typical spectrum allocation in which each user is allocated a pair of channels U_i and D_i with bandwidths W_U and W_D

Hello 123

Water is precious and we must take steps to protect it. Good lawn care practices protect this resource while making the most efficient use of fertilizer and soil nutrients. Follow these simple steps for a healthy lawn and a healthy environment.

USE THE BEST ENVIRONMENTAL PRACTICES FOR LAWN FERTILIZING

Measure your lawn and only apply the amount of fertilizer needed

Be sure your spreader is calibrated and set properly

Never fertilize dormant or inactive turf

Never apply fertilizer just before a heavy rain is forecast or when the soil is saturated or frozen

Keep fertilizer away from surface water bodies.

Keep fertilizer and clippings away from catch basins, drains, and hard surfaces as these could lead to surface waters. Clean up any that land there and put them back onto the lawn

ALL YOUR BASE ARE BELONG TO US

Basic Operation

Placing and receiving calls

To place a call, pick up the telephone that is connected to the Linx device. You will hear the signature Ooma dialtone. Dial the number as you normally would.

To answer a call, pick up your telephone or press the **Talk** button on your phone.

Joining an existing call

Simply pick up the phone that is connected to the Linx device. When you hear the Ooma dialtone, press the **Flash** button on your phone to switch over to the call already in progress.

Call waiting

Switch to a second incoming call by pressing the **Flash** button on your phone when you hear the call waiting beep. Your current call will be automatically placed on hold. You can switch back to the original call by pressing the **Flash** button again.

Caller ID

When an incoming call rings on your Ooma Linx, you will see the caller ID associated with the caller on the display of the handset that is connected to the Linx. If the number corresponds to a contact in your Ooma Phonebook, that information will be shown on the display.

9-1-1 Calls

Calls to 911 will be routed to an emergency dispatch center. Please make sure that your address in My Ooma is always up-to-date as this information is used to determine your location in emergency situations. Learn more about emergency calling with Ooma by visiting **www.ooma.com/911**.

tutorial linux centos how to easy create backup your VPS

centos / July 5, 2012 / One comment

tutorial linux centos – most people say's backup is very important with backup you can save your time and money don't waste your time to making linux zero again. the below bash script will copy all files and directories on you linux VPS. I found it online after trying other **linux backup** systems which either sucked or required me to be the server administrator I found at wht thread,
first we needed create file for bash script you can easy backup your vps, in this case i use nano editor you can choose editor you like.

```
nano backup.sh
```

after then you can copy and paste this script to your **backup.sh script backup vps**

```
# /bin/sh
#########################################
#
# Backup to NFS mount script
#
#########################################

# What to backup
backup_files="/"

# Where to backup to
dest="/home/backup"

# Create archive filename
day=$(date +%A)
hostname=$(hostname -s)
archive_file="$hostname-$day.tgz"

# Print start status message
echo "Backing up $backup_files to $dest/$archive_file"
date
echo

# Backup the files using tar
tar czf $dest/$archive_file $backup_files

# Print end status message.
echo
echo "Backup finished"

Looking for a job now, or for the future? You may want to think about how rapid shifts in technology are changing entire industries today, and into the not-so-distant future.

By 2030 more than two billion jobs around the world are expected to disappear, according to Dr. Thomas Frey, a futurist who heads up the DaVinci Institute in Colorado. But that doesn't mean humans will run out of work to do. Instead, different skill sets will be required to work in emerging and evolving industries, which will create new jobs.

Less than a decade ago the concept of a social media expert or app developer wouldn't have made sense, but today these have become full-time jobs. As machines grow in sophistication and intelligence, some jobs may become redundant for humans.

"The same technology that gets blamed for eliminating our jobs is also giving us capabilities beyond our wildest dreams," says Frey. "We have instant access to friends and family, instant access to answers for almost any question we ask and instant entertainment. Ever see the latest Jedi film crew engineers, creative directors, and computer system analysts all currently exist, but every one of these will morph and change as technology and communication systems make their impact."

Newly developing humans models around the shocking economy 3-D printing and commercial drones, among others are ostensibly wide open. Positions or careers such as interability analyzer who can analyze human or businesses for shareable assets, drone standards specialists and 3-D printing ink developers are but a few of the examples cited by Frey.

"As a rule of thumb 60 percent of the jobs [that will exist] 10 years from now haven't been invented yet," he says. "Our goal needs to be focused on the catalytic innovations that create entirely new industries, and those new industries will serve as the engines of future job creation."

"Hot new skills" he believes will be the ball included those that focus on how technology changes workers and cities. Experts with the skills to manage the impact of technology are poised to do well, he adds.

Erik Brynjolfsson co-authored the book *The Second Machine Age: Work, Progress and Prosperity in a Time of Brilliant Technologies* delving into the strategies people and companies will need to survive and prosper. Though computers and digital technologies have grown in the past 30 years and more professions will be forever changed in the years to come, he expects to see more demand for the types of skills machines lack, including creativity, interpersonal skills and fine motor control.

"That might translate into more entrepreneurs and artists, more coaches and trainers and more gardeners and hospitalogers," says Brynjolfsson. "On balance, I'm hopeful because technology will make it possible to have more wealth with less work. The question is whether we also update our economy so that we have broadly shared prosperity or whether we have an increasing concentration of income."

Key to doing that is an inherent need to constantly update skill sets, because the demand for different types of abilities is evolving faster than ever. As an example Massachusetts-based technology research firm International Data Corporation predicts businesses will have access to 50 times more data over the next decade. As data becomes cheaper, faster and more pervasive, the nature of work begins to change as well.

"Skills and institutions will determine the overall level and distribution of income and labour," says Brynjolfsson. "Work to be a superstar in some area, not just 'pretty good.' Technology gives the very few in each field a worldwide platform and outsized rewards."

The increasing digitization of the economy also calls for more jobs with software skills, something becoming more pronounced as companies in various fields have a greater need for tech talent and know-how. Telecommuting and remote work may also factor into this, now that the technology to collaborate remotely has matured.

"Intellectual curiosity is a skill set people need to have," says Richard Lanoie, director of corporate recruiting at GEICO. "Learning agility is also very important because things are going to change at a rapid pace. It's not going to be what you know but what you can learn in the future and how you can adapt your skill sets to add value to your position, your department and your company."

"With unprecedented access to people, resources and information through today's technologies, those who are ready to impact the evolving workplace will find new jobs and careers that have yet to materialize well within reach."

BEING IS MORE THAN JUST KNOWING IF YOU ARE LOOKING FOR A JOB DURING CANADA, YOU MIGHT WANT TO LOOK AT SOME OF THE JOBS THAT ARE GROWING FASTER THE U.S. INFORMATION TECHNOLOGY, LEGAL, ACCOUNTING, HR AND MORE—ARE AFTER A MORE ADVANCED SET OF QUALIFICATIONS, WHAT EMPLOYERS ARE LOOKING FOR IS KNOWLEDGE.

GET YOUR NEW THIN CLIENT SYSTEM UP AND RUNNING

Congratulations—welcome to enhanced security, reduced cost, less risk and a system that's a whole lot easier to manage.

HP ThinPro thin clients help improve productivity with quick deployment of simple, familiar and more reliable computing experiences.

It's easy to get started

This quick-start guide illustrates some of the most common tasks of setting up an HP ThinPro thin client. It's designed to help you get up and running, right out of the box. However, if you have questions, need more information or want to set up a more unique configuration, please refer to the HP ThinPro Administration Guide at **www.hp.com/support/manuals/thinclients**. Select your thin client and its respective guide under *General Reference*.

LOGGING ON AND GETTING STARTED

The HP ThinPro interface appears when you first turn on the thin client and defaults to User Mode.

User Mode

—Allows restricted rights to subset of access connection creation and control panel applications. Allows restricted rights to subset of access connection creation and control panel applications.

Administrator Mode

- Allows full access to control panel applets, main panel and HP ThinState Capture and Deploy FTP Images, etc.
- Defines which connections and connection types are visible when in User Mode, and limits users on deleting connections or creating new ones.

Note. You must log in with administrator permissions to access all components of the HP ThinPro user interface. The default password for Administrator Mode is: **root**

To switch between User and Administrator mode:

1. Click the HP logo in the bottom left of the screen.
2. Position your cursor in the screen background and right-click. Then, select **Administrator/User Mode Switch**.
3. Enter your password.

Quick tip

To determine if you are in User or Administrator mode:

A blue banner at the top of the console window designates User Mode.

A red banner at the top of the console window designates Administrator Mode.

be older than fifty In some cases one could stay o that age for a number of years or even get younger as years go by

For this reason we are going to use the year of birth to calculate the age Out of 356 central committee members, the information is available for 293 cases. The average age of these people is 56.6, 1.2 years older than the one reported by the Xinhua News Agency (55.4).[2] It is likely that those who were born in December reported their age according to the month of birth instead of the year of birth. Subtracting one year from those who were born in December we got the average age of the sample at 56 5 still one year older than the reported one. With a standard error at 0 31 for the sample the 95percent confidence interval ranges between 55 9 and 57 1 The lower confidence limit (LCL) noticeably is still higher than 55 4 (Table 8)

<<TABLE 8 NEAR HERE>>

It is likely that the sample is a bit biased toward older members because their information is more accessible In fact, among sixty-three missing cases,[3] over seventy percent (45 cases) were alternate members and only twenty nine percent (18 cases) were full members Since the alternate members were about s x years younger than the full members of the 16th CC in the sample, missing a significant number of alternate members may cause the overestimation of the average age of all cases.

However it is also likely that the reported average age is lower than the actual average age of the 16th CC members The same report indicated that the average age of the 15th CC members was 55 9 years old in 1997 Since we do have the full information on all members of the 15th CC we can easily verify the number against the data According to the year of birth, the average age of the 15th CC came to 56 5 in 1997 Since the 15th Party Congress was held in September 1997 those who were born in October November and December should be considered one year younger than they were according to the year of birth The resultant average is 0 4 lower than the one according to the year of birth because there were 134 people who were born in these months (43 in October 44 in November and 47 in December) However the

1	Male turkeys are called toms. Toms can fan their tails and puff up.
2	Female turkeys are called hens. They are smaller than toms. They do not puff up.
3	Young turkeys are called poults. They can fly into trees if they need to.
4	Wild turkeys eat berries, insects, nuts, and seeds.
5	Wild turkeys live in the deep woods and brushlands. At night they rest in trees.

Subject. Storage and walkthroughs

Good morning Essie,

Tomorrow we will be delivering some vanities to the storage room on the east side of 4825. Could you have maintenance meet JGal, and Home Depot at the storage room at 8AM to open the door?

Also, I will be there, with our cabinet company to measure out 17 kitchens. Could you have maintenance pull the keys for these 17 units, and tell me where I can go to pick them up?

Thank you Essie!

ATTENTION MUSIC LOVERS!!

Christ Fellowship Presbyterian Church will hold its Christmas Eve Service at 5:00 PM on December 24th. Pastor Jim Thys, will deliver the Christmas message. The public is invited to participate in this joyful event. During the service the talented singers of the Church will lead the congregation in musical praise.

This year, we are especially honored to have Sandhill's own gifted baritone, **Lucas Meachem**, who has graciously agreed to honor us with his talent. He will sing several selections for the Blessed season of Christmas.

Mr. Meachem performs with the Metropolitan Opera, the Royal Opera House, Covent Garden, the Florida Grand Opera, the Palm Beach Opera and the New Orleans Opera. Additionally he has been in concert with the Madrid Teatro Real, the Seattle Symphony, the Staatstheatre Stuttgart, and with Seiji Ozawa in Tokyo.

Mr. Meachem is the son of Susan and Vince Zucchino of Carthage. He graduated from Union Pines HS. He attended Appalachian State University and went on to Graduate Studies at the Eastman School of Music in New York and Yale School of Music. In addition to the many honors he has received, in 2005 he was selected as one of the prestigious Adler Fellows with the San Francisco Opera.

Christ Fellowship Presbyterian Church is located at 1425 Midland Road in Southern Pines. The community is welcome!

CANON CANADA [illegible]
Head Office: 6390 Dixie Rd. Mississauga ON L5T 1P7
1-800-OK CANON (652-2666) www.canon.ca

CANON® PIXMA™ Limited Warranty – *For Canada Only*
CANON® CanoScan™ Scanner Limited Warranty – *For Canada Only*
CANON® FAX Limited Warranty – *For Canada Only*

The limited warranty set forth below is given by Canon Canada Inc. (CCI) with respect to the Canon brand PIXMA series, the Canon brand CanoScan [illegible] and/or the Canon brand FAX series (the "product") sold by CCI through an authorized dealer and purchased and used in Canada. The product that you have purchased is the only product to which [illegible] and the limited program provided by CCI [illegible].

The Canon product when delivered to you in a new condition in the original container, is warranted against [illegible] materials or workmanship as follows: for a period of one (1) year from the date of original purchase, defective parts or a defective product returned to a Canon repair facility or a Canon Canada Authorized Service Facility (ASF) for such product, as applicable and proven to be defective upon inspection will be exchanged for new parts or comparable rebuilt parts or a refurbished product, as determined by CCI or the ASF. [illegible] repair or replacement shall not extend the original warranty period of the defective product. This limited warranty does not cover any supplies or accessories as to which there shall be no warranty or replacement.

This limited warranty shall only apply if the product is used in conjunction with compatible [illegible] equipment and compatible software, as to which items CCI shall have no responsibility. **Non-Canon brand equipment and software which may be distributed with the product are sold "as is" without warranty of any kind by CCI, including any implied warranty regarding merchantability or fitness for a particular purpose, and all such warranties are disclaimed. The sole warranty, if any, with respect to such non-Canon brand items is given by the manufacturer or producer thereof.**

This limited program covers all defects encountered in normal use of the product and does not apply in the following cases:

(a) Loss or damage to the product due to abuse, mishandling, improper packaging by you, [illegible], failure to follow operating instructions, [illegible] and environmental instructions prescribed in CCI's instruction manual or service performed by other than a CCI or an ASF. [illegible] loss of or damage to the product [illegible] without limitation, water damage, damage from dropping the product, [illegible] or damage to the [illegible];

(b) Use of parts or supplies (other than those distributed by CCI) and damage the product or cause abnormally frequent service calls or problems;

(c) If any product has had its serial number or dating altered or removed;

(d) [illegible] or other interference with or [illegible] to the telephone network or [illegible] failure due to incompatibility with other [illegible], as applicable;

(e) Models of product which are not distributed by CCI respectively.

NO IMPLIED WARRANTY, INCLUDING ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, APPLIES TO THE PRODUCT AFTER THE APPLICABLE PERIOD OF EXPRESS LIMITED WARRANTY STATED ABOVE, AND NO OTHER EXPRESS WARRANTY OR GUARANTEE, EXCEPT AS MENTIONED ABOVE, GIVEN BY ANY PERSON, FIRM OR CORPORATION WITH RESPECT TO THE PRODUCT SHALL BIND CCI. (SOME PROVINCES DO NOT ALLOW LIMITATIONS ON HOW LONG AN IMPLIED WARRANTY LASTS, SO THE ABOVE LIMITATION MAY NOT APPLY TO YOU.) CCI SHALL NOT BE LIABLE FOR LOSS OF REVENUE OR PROFITS, INCONVENIENCE, EXPENSE FOR SUBSTITUTE EQUIPMENT OR SERVICE, STORAGE CHARGES, LOSS OR CORRUPTION OF DATA, FAILURE TO REALIZE SAVINGS OR OTHER BENEFITS, OR FOR ANY OTHER SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES CAUSED BY THE USE, MISUSE OR INABILITY TO USE THE PRODUCT, REGARDLESS OF THE LEGAL THEORY ON WHICH THE CLAIM IS BASED, EVEN IF CCI HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. NOR SHALL RECOVERY OF ANY KIND AGAINST CCI BE GREATER IN AMOUNT THAN THE PURCHASE PRICE OF THE PRODUCT SOLD BY CCI AND CAUSING THE ALLEGED DAMAGE. WITHOUT LIMITING THE FOREGOING, YOU ASSUME ALL RISK AND LIABILITY FOR LOSS, DAMAGE OR INJURY TO YOU AND YOUR PROPERTY AND TO OTHERS AND THEIR PROPERTY ARISING OUT OF USE, MISUSE OR INABILITY TO USE ANY PRODUCT SOLD BY CCI NOT CAUSED DIRECTLY BY THE NEGLIGENCE OF CCI. (SOME PROVINCES DO NOT ALLOW THE EXCLUSION OR LIMITATION OF INCIDENTAL OR CONSEQUENTIAL DAMAGES, SO THE ABOVE LIMITATION OR EXCLUSION MAY NOT APPLY TO YOU.) THIS LIMITED WARRANTY SHALL NOT EXTEND TO ANYONE OTHER THAN THE ORIGINAL PURCHASER OF ANY PRODUCT, OR THE PERSON FOR WHOM IT WAS PURCHASED AS A GIFT AND STATES YOUR EXCLUSIVE REMEDY.

This warranty gives you specific legal rights, and you may also have other rights which may vary from province to province.

CCI offers a full range of customer technical support options[1]:

- For e-mail technical support, the latest driver downloads and answers to frequently asked questions: www.canon.ca
- Free technical support Monday to Friday (excluding holidays)[2]: 1-800-OK CANON (652-2666)

If the problem cannot be corrected by using one of the above technical support options, you will be asked to follow the applicable procedures for warranty service. **Note that it is in the sole discretion of CCI whether a product is eligible for either the CARRY-IN / MAIL-IN SERVICE or ADVANCED WARRANTY EXCHANGE. [illegible] proof of purchase (bill of sale) is required to verify eligibility to the time of service. This requirement will be [illegible] by providing a copy of your dated bill of sale. You will also need to supply the product serial number.**

CARRY-IN / MAIL-IN SERVICE[2]

CARRY-IN / MAIL-IN SERVICE is a program under which your product is repaired by an ASF. If the CARRY-IN / MAIL-IN SERVICE is offered by CCI and you elect such service, the Canon Customer Information Centre representative will provide you with the name and phone number of the nearest ASF(s) to your location. You must contact an ASF to schedule the repair. If shipping is involved, it is your responsibility to properly package and send the product, together with your dated proof of purchase and a complete explanation of the problem, to the ASF at your cost. Products covered by this limited warranty will be repaired and returned to you by the ASF. Repairs not covered under this limited warranty will be charged to you [illegible] from time to time.

ADVANCED WARRANTY EXCHANGE[2]

Advanced Warranty Exchange is a warranty program that expedites, usually within three (3) business days[2], the exchange of a defective product with a refurbished product. The refurbished product you receive will be covered by the balance of the period remaining on your original product warranty. **Note that by using this service you will keep the replacement product that is sent to you, and your originally purchased product shall become the property of CCI.** The Advanced Warranty Exchange program service is available only during the express limited warranty period for your product and only in Canada during such period.

If the Canon Customer Information Centre representative cannot correct the problem with your product over the telephone and you elect the Advanced Warranty Exchange program service, the representative will issue you a reference number upon verification of warranty eligibility. You will be asked for your credit card [illegible] to your defective product and for a [illegible] to be pre-authorized by CCI as an amount up to the cost of a ship-to location for the replacement product (street address only). You must also provide a [illegible] number and will be pre-authorized by CCI as an amount up to the cost of a new product to the date you elect the Advanced Warranty Exchange program service. **Your credit card account will be charged in an amount up to the cost of a new product** (i) if you do not return your defective product to a Canon repair facility by the date specified by CCI and in the manner described below; (ii) if the defect in the product returned is not covered by this limited warranty; or (iii) if the warranty period on the product has expired or has not been sufficiently established by your supplying of the appropriate documentation.

The Canon repair facility will ship out the replacement product by courier prepaid by Canon. After receipt of the replacement product (with instructions and a prepaid return waybill), follow the [illegible] to ship the defective product to a Canon repair facility. You must return the defective product in the shipping carton in which the replacement product was packed [illegible] ink cartridges and ink tank(s) and you must include the reference number, **a copy of your dated proof of purchase** (bill of sale) and a complete explanation of the problem. **Do not include any other items in said return shipping container.** It is your responsibility to properly package and send your defective product to the Canon repair facility.

[1] Canon Customer Information Centre [illegible] are available Monday to Friday (excluding holidays) from 9 a.m. to 8 p.m. (EST).
[2] Support program specifics are subject to change without notice and to the availability of refurbished replacement units. [illegible] a.m. – 3 p.m. (EST), Monday to Friday (excluding holidays). The Canon Customer replacement Centre must receive pertinent information by 3 p.m. (EST) to ensure [illegible] business day [illegible] Warranty Exchange Service. CCI does the warranty [illegible] in the event of [illegible] beyond CCI's reasonable control.

RESULTS:
1. HPV (High Risk) mRNA by APTIMA, Liquid-based Preparation (Thinprep) Cervical
Chlamydia Trachomatis **Detected**

COMMENTS/DISCLAIMERS:
The Hologic Gen Probe APTIMA Combo 2 Assay is a target amplification nucleic acid probe test that utilizes target capture for the in vitro qualitative detection and differentiation of ribosomal RNA (rRNA) from Chlamydia trachomatis and/or Neisseria gonorrhoeae in clinician-collected endocervical, vaginal, and male urethral swab specimens, and male urine specimens. The assay may be used to test specimens from symptomatic and asymptomatic individuals to aid in the diagnosis of gonococcal and/or chlamydial urogenital disease. A negative result does not preclude the presence of a C. trachomatis or N. gonorrhoeae infection because results are dependent on adequate specimen collection, absence of inhibitors and sufficient rRNA to be detected.
The APTIMA Combo 2 Assay is not intended for the evaluation of suspected sexual abuse or for other medico-legal indications. For those patients for whom a false positive result may have adverse psychosocial impact, the CDC recommends retesting by a method using an alternate technology.

Now go through your quiz again and count how many "A B C D and Es" you circled and place the number in below

TOTALS

A _____ B _____ C _____ D _____ E _____

Which letter has your highest score? That is your primary love language

- A = Words of Affirmation
- B = Quality Time
- C = Receiving Gifts
- D = Acts of Service
- E = Physical Touch

If you really do "feel less inspired" go to Part 2 "Finding Your Language" and read the book "The Five Love Languages: The Secret to Love That Lasts" by Dr. Gary Chapman

The five love languages

Words of Affirmation

One of your deepest needs is the need to feel appreciated. Verbal compliments, words of appreciation, encouragement, kind and humble words are all ways to show love to you.

Quality Time

You enjoy doing things TOGETHER! We aren't talking about just sitting in front of the TV together not really giving each other undivided attention. This means looking at each other, talking to each other, sharing your life with your partner

Receiving Gifts

You are happy to receive things from your loved ones. They don't have to be expensive. The gift is a symbol of "she cares across me" and "she thinks of me"

Acts of Service

For you, actions speak louder than words! You prefer your partner to do things for you such as cooking a meal, giving a massage, cleaning the room. You like your partner to initiate the acts of service and put efforts into doing them to show that she cares.

Physical Touch

You love it: whether a hug, a kiss, squeeze on the shoulder, a pat on the back, a touch of the face, and so on and so forth around the world. Touches can be 10 times as powerful and comforting as any words!

Apply today on "The five love languages" go to Part 2 "Finding Your Language" and read the book "The Five Love Languages: The Secret to Love That Lasts" by Dr. Gary Chapman

Windows® Fax and Scan

One place to scan and fax your documents

FAX: You can send and receive faxed documents on your computer without using a fax machine. You can also print, e-mail, or save a copy of your faxes.

To get started:

1. Connect a phone line to your computer.

   If your computer needs an external modem, connect the phone to the modem, and then connect the modem to your computer.

2. On the toolbar, click **New Fax.**

3. Follow the instructions in the setup wizard to connect to a fax modem, and then, when you're finished, create your fax.

To connect to a fax server, or one of a modem, connect your system administrator. For more help with faxing, click the **Help** button on the toolbar.

SCAN: After you add a scanner to your computer, you can preview documents or pictures before you scan them, and then adjust your scan settings for better results. You can also fax or e-mail scanned files to someone else.

To get started:

1. Connect your scanner to your computer by following the instructions that came with your scanner, and then place a document or picture on the scanner.

2. In Windows Fax and Scan, at the bottom of the left pane, click **Scan.**

3. On the toolbar, click **New Scan.**

4. Choose the scan settings you want to use, and you're ready to scan.

Use the options on the toolbar to fax, e-mail, print, or copy scans at any time. For more help with scanning, click the **Help** button on the toolbar.

MONEY MARKET PORTFOLIO

Class/Ticker Service Shares CSAXX

Before you invest, you may want to review the fund's prospectus, which gives more information about the fund and its risks. You can find the fund's prospectus, Statement of Additional Information (SAI) and other help information about the fund online at https://www.dws-investments.com/moneypress. You can also get this information at no cost by e-mailing a request to service.dws@dws.com, calling (800) 730-1313 or asking your financial advisor. The prospectus and SAI, both dated August 1, 2011 are supplemented, and incorporated by reference into this Summary Prospectus.

INVESTMENT OBJECTIVE

The fund seeks maximum current income consistent with stability of capital

FEES AND EXPENSES OF THE FUND

These are the fees and expenses you may pay when you buy and hold shares

SHAREHOLDER FEES

(paid directly from your investment)

Management fee	None

ANNUAL FUND OPERATING EXPENSES

(expenses that you pay each year as a % of the value of your investment)

Management fee	0.10
Distribution (12b-1) fees	0.60
Other expenses	0.29
Total annual fund operating expenses	**1.00**

EXAMPLE

This Example is intended to help you compare the cost of investing in the fund with the cost of investing in other mutual funds. The Example assumes that you invest $10,000 in the fund for the time periods indicated and then redeem all of your shares at the end of those periods. The Example also assumes that your investment has a 5% return each year and that the fund's operating expenses remain the same. Although your actual costs may be higher or lower, based on these assumptions your costs would be

1 Year	3 Years	5 Years	10 Years
$102	$334	$579	$1,283

PRINCIPAL INVESTMENT STRATEGY

The fund is managed in accordance with Rule 2a-7 under the Investment Company Act of 1940, as amended, which governs the quality, maturity, diversity and liquidity of instruments in which a money fund may invest.

The fund invests in high quality, short-term, US dollar denominated money market instruments, including obligations of US and foreign banks, corporate obligations, US government securities, municipal securities, repurchase agreements and asset backed securities paying a fixed variable or floating interest rate.

The fund will normally invest at least 25% of its total assets in bank obligations

The fund may invest up to 10% of its total assets in other money market mutual funds.

Working in consultation with portfolio management, a credit team screens potential securities and develops a list of those that the fund may buy. Portfolio management, looking for attractive yield and willingness to undertake such as credit quality, economic outlooks and possible interest rate movements, then decides which securities on this list to buy

MAIN RISKS

There are several risk factors that could reduce the yield you get from the fund, cause the fund's performance to trail that of other investments, or cause you to lose money

Money market fund risk. *An investment in the fund is not insured or guaranteed by the FDIC or any other government agency. Although the fund seeks to preserve the value of your investment at $1.00 per share, the share price isn't guaranteed, and it is possible to lose money by investing in the fund.* The Advisor is not obligated to take any action to maintain the $1.00 share price. The share price could fall below $1.00 as a result of the actions of one or more large investors in the fund. The credit quality of the fund's holdings can change rapidly in certain markets, and the default of a single holding could cause the fund's share price to fall below $1.00. In certain periods of high redemption pressures and/or illiquid markets.

Interest rate risk. Rising interest rates could cause the value of the fund's investments — and therefore its share price as well — to decline. Conversely, any decline in interest rates is likely to cause the fund's yield to decline and during periods of unusually low interest rates the

Hail Mary:

Today begins the 90th Anniversary of the apparition of the Virgin of Fatima :

When you receive this email say a Hail Mary and ask for a special favor.

"Hail Mary, full of grace. The Lord is with thee. Blessed art thou among women and blessed is the fruit of thy womb, Jesus. Holy Mary, Mother of God, pray for us sinners, now and at the hour of our death, Amen.? (your request)

Please do not break the Novena , send it to 12 people you think deserve justice, peace, love, health, prosperity and truth. When you are down to nothing, God is up to something. This has been traveling since 5/13/07!

The *Graduate Record Examinations*® (GRE®) *General Test* measures skills that faculty at graduate deans have consistently said are essential to graduate school success. These skills of verbal reasoning, quantitative reasoning, and critical thinking and analytical writing are foundational skills for applicants to all U.S. graduate programs, regardless of educational or linguistic background or country of origin.

Although the GRE Program has many studies of the predictive validity of the GRE *General Test* (which are available on the GRE website: **www.ets.org/gre**), a recent meta-analysis by Dr. ETS researchers Nathan Kuncel, Sarah Hezlett and Dr. Ron Dr. ves provides additional positive evidence of the validity of the GRE *General Test* as well as a body of graduate school success. This meta-analysis is important because predictive validity studies are often difficult to conduct for a variety of reasons (e.g., insufficient data, test scores or predictors of success that do not vary greatly scores and numbers). Can perform with the test research. The Kuncel et al meta-analysis improved on these studies by examining the validity of the GRE *General Test* for multiple disciplines using multiple measures of success, and by addressing statistical artifacts, such as range restriction.

Figure 1. The criteria for success

One strength of the Kuncel et al. research is that this meta-analysis analyzed data from a very large data set involving more than 75% independent samples based on a pool of more than 80,000 students. In addition, the study looked at five predictors of success and eight criteria of success. The predictors included the three measures of the GRE *General Test* (verbal reasoning, quantitative reasoning and analytical reasoning), GRE Subject Test scores and undergraduate grade point average (UGPA). The criteria for success are shown in the figure to the left.

Each of these studies can be considered a different dimension of successful performance in graduate school

Results of the Kuncel *et al* study

Results from this study show that:

1. The GRE *General Test* is a generally valid predictor of first-year graduate GPA, overall graduate GPA, comprehensive exam scores, publication citation counts and faculty ratings
2. The GRE *General Test* also correlates positively with degree attainment and research productivity
3. The GRE *General Test* has better predictive validity than undergraduate grades or letters of recommendation
4. The GRE Subject Tests are better predictors of success than either the GRE *General Test* or undergraduate GPA

This meta-analysis study is important because these results apply across a range of intended academic majors, across native speakers of English and nonnative speakers of English, across traditional and nontraditional students and across master's and doctoral programs.

Transmission capacity of wireless networks

Steven Weber[1] and Jeffrey G. Andrews[2]

[1] *Drexel University, sweber@coe.drexel.edu*
[2] *The University of Texas at Austin, jandrews@ece.utexas.edu*

Abstract

Transmission capacity (TC) is a performance metric for wireless networks that measures the spatial intensity of successful transmissions per unit area, subject to a constraint on the permissible outage probability (where outage occurs when the SINR at a receiver is below a threshold). This volume gives a unified treatment of the TC framework that has been developed by the authors and their collaborators over the past decade. The mathematical framework underlying the analysis (reviewed in Ch. 2) is stochastic geometry. Poisson point processes model the locations of interferers, and (stable) shot noise processes represent the aggregate interference seen at a receiver. Ch. 3 presents TC results (exact, asymptotic, and bounds) on a simple model in order to illustrate a key strength of the framework: analytical tractability yields explicit performance dependence upon key model parameters. Ch. 4 presents enhancements to this basic model — channel fading, variable link distances, and multi-hop. Ch. 5 presents four network design case studies well suited to TC: *i)* spectrum management, *ii)* interference cancellation, *iii)* signal threshold transmission scheduling, and *iv)* power control. Ch. 6 studies the TC when nodes have multiple antennas, which provides a contrast vs. classical results that ignore interference.

UN inspectors visit Iran as nuclear tensions rise

Inspectors from the International Atomic Energy Agency (IAEA) have begun a three-day visit to Iran, to try to determine the purpose of the country's nuclear programme.

The visit comes at a time of escalating tension between Tehran and the West over Iran's nuclear activities.

The director general of the IAEA, Yukiya Amano, says Iran needs to engage and answer the agency's questions.

Iran denies that it is trying to develop a nuclear weapon.

The head of the IAEA team said they hoped to "resolve all the outstanding issues with Iran" over its nuclear programme.

"In particular we hope that Iran will engage with us on our concerns regarding the possible military dimensions of Iran's nuclear programme," AEA Deputy Director General Herman Nackaerts said before leaving for Iran from Vienna's airport.

Iran's ambassador to the IAEA, Ali Asger Soltanieh, said the inspection was aimed at finding seventy plots and will prove the peaceful nature of Iran's nuclear work.

The dispute over Iran's nuclear activities has intensified since an IAEA report in November expressed serious concerns about the possible military dimensions of the programme.

The agency said it had information suggesting Iran had carried out tests "relevant to the development of a nuclear explosive device".

Sanctions

Since then the European Union and the United States have introduced a series of sanctions against Iran, including measures targeting the country's lucrative oil industry.

The EU sanctions prohibit the import, purchase and transport of Iranian crude oil and petroleum products as well as related finance and insurance.

All existing contracts will have to be phased out by 1 July.

This timing was intended to give some EU countries time to switch to alternative sources of oil, but Iranian lawmakers are now considering stopping exports to Europe within days, a move likely to drive up fuel prices.

Iran has also threatened to close the Strait of Hormuz at the entrance to the Gulf, through which more than 20% of the world's Seaborne oil passes.

The United States has said it will use force if necessary to keep the shipping lane open, raising the prospect of a confrontation with Iran.

Hello!

This is a sample text file which is being sent to you as per your request via the Interpage FreeFax(sm) Service!

This service is intended to provide a preliminary evaluation as to the quality and timeliness of Interpage's subscription fax service(s).

If you review the cover sheet which was transmitted with this fax, you will note the first letter of the name you had indicated in the TO: field of the FreeFax request page. This letter serves to correlate the fax request which you had sent with this trial fax transmission result.

This file is a sample MS Word file; many other file types are supported.

If you have any questions regarding Interpage's OutFax(sm) Service, including the FaxUnlimited(sm) service with no-per or per-minute charges, please feel free to contact us at:

Phone: +1 (510) 315-2750 8AM to 5:30 PM M-F Pacific Time

E-Mail: insl-support@interpage.net

Web: http://www.interpage.net

Thank you for your interest!

Notes: 1. Due to the malicious use of the FreeFax service, Interpage will no longer transmit personal text messages, or any other faxed sample message not in Interpage-mail. You may establish a trial account for evaluation purposes by filling out the form located at *http://www.interpage.net/info-fax-trial.html*, omitting any identifying information and citing a valid e-mail address and contact telephone number. Please call (510) 315-2750 for additional details.

2. This fax is not a solicitation nor is it an offer. It was sent by a visitor to interpage's web site who entered your destination number as a recipient of this test fax. A single destination may not receive more than two such, in a given week. However, if you feel that someone is sending you faxes in a cruel, rude and abusive manner, please call us at (510) 315-2750 and we will block your fax number from the FreeFax service.

Set Telephone Line Compatibility for Interference and VoIP Systems

Related Models: MFC-L2800DW

Problems sending and receiving faxes due to possible interference on the telephone line may be solved by lowering the modem speed to minimize errors. If you frequently send faxes using a Voice over IP (VoIP) service, Brother recommends changing the compatibility to Basic (for VoIP).

- VoIP is a type of phone system that uses an Internet connection rather than a traditional phone line.

1 Press Menu.

2 Press ▲ or ▼ to display the Fax option, and then press OK.

3 Press ▲ or ▼ to display the Initial Setup option, and then press OK.

4 Press ▲ or ▼ to display the Compatibility option, and then press OK.

5 Press ▲ or ▼ to display the High (Basic for VoIP) or Low option, and then press OK.

Option	Description
High (Basic for VoIP)	Select High to set the modem speed at 33600 bps.
Low	Select Low to reduce the modem speed to 14400 bps and turn off Error Correction Mode (ECM). Use this when problems of sending faxes to your telephone line, you may prefer to use it or have no need of ECM. To improve compatibility with most VoIP services, Brother recommends changing the compatibility setting to Basic (for VoIP).

6 Press Stop/Exit.

Let's talk about your speech disability, and how you have the amazing ability blessing to rap despite having a significant stutter

Yeah I was born with a stutter all of my life, and three years ago I learned how to rap. Ever since then, I've been rapping.

How did you overcome your speech disability, and how do you get through that day-to-day?

It's hard because it's hard to communicate with people, but rap is my way to express myself

When was the first you realized that you could rap?

It was three years ago at summer camp.

What was the first rhyme you spit when you started rapping?

I really don't remember. (Laughs)

Who are some of your favorite artists that you're listening to right now?

I have Drake, I have Captain Hook and I have Kid Wellz

Speaking of Drake, you actually got the chance to spit a few bars for Drake backstage at a Tyga concert, how was that?

It was amazing

a You have a great idea, but you need to take it from brain to bank. Now may be the time to try, because your odds of success can increase with age, says Wendy Robbins, a New Mexico–based investor and consultant to other creative types. At press time, about 60 percent of The United Inventors Association of America members were 50 or older; estimates executive director Mark Reyland, and overall membership had grown 243 percent in a little over a year. "Older adults have more experience, plus the insight and persistence to get a product to market," says Jeffrey Dahlin, president of Philadelphia's American Society of Inventors and author of *How to Market a Product for Under $500*. You can make money, but don't expect to get rich. Sure, after two years of development, George Weiss, 85, of Brooklyn, has sold 20 000 copies of his word game Dabble. But more common are inventors like Sheri Gregory, 64, of

Black History Month

From Wikipedia, the free encyclopedia

Black History Month also known as **African-American History Month** in America, is an annual observance in the United States, Canada, and the United Kingdom for remembrance of important people and events in the history of the African diaspora. It is celebrated annually in the United States[1] and Canada[2] in February, and the United Kingdom[3] in October

Negro History Week (1926)

The precursor to Black History Month was created in 1926 in the United States, when historian Carter G. Woodson and the Association for the Study of Negro Life and History announced the second week of February to be "Negro History Week."[1] This week was chosen because it coincided with the birthday of Abraham Lincoln on February 12 and of Frederick Douglass on February 14, both of which dates Black communities had celebrated together since the late 19th century.[5]

From the event's initial phase, primary emphasis was placed on encouraging the coordinated teaching of the history of American blacks in the nation's public schools. The first Negro History Week was met with a lukewarm response, gaining the cooperation of the Departments of Education of the states of North Carolina, Delaware, and West Virginia as well as the city school administrations of Baltimore and Washington, D.C.[6] Despite this far from universal acceptance, the event was regarded by Woodson as "one of the most fortunate steps ever taken by the Association," and plans for a repeat of the event on an annual basis continued apace.[6]

At the time of Negro History Week's launch, Woodson contended that the teaching of black history was

Troubleshooting Steps

The steps below will help you resolve common faxing problems.

- Switch off fax machine and unplug power adapter from device and from wall outlet.
  - Let fax machine remain off for 60 seconds.
- Try a different phone cord between the fax machine and the Vonage device.
- Eliminate any splitters between the fax machine and the Vonage device.
- Connect Fax machine directly to the Vonage device, bypassing any home wiring.
- If using an All-In-One device, temporarily disconnect device from PC.

WinFax PRO TIPS AND TESTIMONIALS

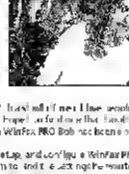
SEND PHOTO QUALITY FAXES From the small real estate office Weston serves uses WinFax PRO to send dozens of investment photos to clients every day. He has always enjoyed the ease of WinFax PRO, but is very excited about the new Photo Quality fax feature. Now the image he sends is remarkably clear and detailed, making it most useful to view for investment possibilities. What's more, if unsure, customers or investors are able to narrow down their selections by looking at faxes he sends them, and he can then invest even more time with customers who truly meet their needs.

TIP *WinFax PRO offers two terrific printer fax options: Photo Quality and WinFax standard. Use the Photo Quality option to send fax transmissions that include drawings, diagrams, or other graphics, maximizing graphics quality and clarity. Use the WinFax Standard option to send most everyday faxes, quickly.*

NEVER MISS AN IMPORTANT FAX AGAIN Bob from Bailey Travel constantly often works away from his office, but he never misses any important faxes because he uses WinFax PRO. When a few faxes arrive, WinFax automatically pages him to notify him that a fax has been received. Sometimes he even sets WinFax PRO to automatically forward important faxes to his cell phone.

WINFAX PRO INTEGRATES SEAMLESSLY WITH OTHER APPLICATIONS, such as ACT! or Microsoft Outlook, so you are adding no faxes packet to learn. You send the message from within your favorite database and then simply select a template. The people at Bailey Travel use WinFax PRO some of the same functions, but love the ease of point-and-click programming. Common letters are simply selected by using a click of the ACT! phonebook list.

AND IS UNWANTED FAXES Wendy Wilkins flower shop had been so bombarded by unsolicited faxes from wholesalers and inexpensive brokers that she had no recourse but to turning off her phone overnight during her business hours, but she couldn't risk missing important faxes such as invoices and customer orders. Wendy installed WinFax PRO and configured the Do Not Disturb feature to intercept unwanted faxes. Now she leaves her fax machine on 24 hours a day, and WinFax PRO is a useful business tool for her shop again.



TIP *Think the Photo Quality option is only for sending photographs? Not so. Use it to send any fax with fine detail or lots of shading, such as a fax containing a detailed map or a fax containing a graph with many colors.*

WINFAX PRO IS SO EASY TO SET UP AND USE When Bob installed WinFax PRO, he was able to get all of his users faxing and receiving faxes in just a few minutes. Bob's users love the ease of point-and-click programming. Common letters are simply selected by using a click of the ACT! phonebook list. Bob needs no additional fax cards or phone lines. With WinFax PRO Bob needs no extra equipment to accomplish all of these goals.

Bob is surprised by how easy it has been to install, set up, and configure WinFax PRO. The centralized program setup has made it easy for him to install it on each computer he wanted to run it on. And the WinFax Controller—a small, unobtrusive utility Windows Start Menu item—has made it easy for his customers to learn how to use WinFax without having to train them on a complex application. With a few clicks he can see if he has new messages, send faxes, receive faxes, and open the fax message files again. And he can use his fax modem and cable to share WinFax PRO with his entire network.

Bob and Wendy's Fax Sharing network (as shown in figure 1) makes it possible for each modem and phone line at the entire office to share fax resources. Now Bob's users can access newly received faxes on the host machine, determine who they belong to, and receive the faxes belonging to each employee.

WinFax PRO also makes it easy for Bob to keep his company's faxing software up to date. A single click accesses a tool called **LiveUpdate** which Bob can use to update WinFax PRO. Bob also uses a feature called **LiveAdvisor**, a personal agent that checks with Symantec to retrieve messages about product updates, upgrades, technical tips, and other product information.

Hooray!!
moving!!

Inside Our Production Facility

Consolidation of many services under one roof, while offering uncompromising quality is what distinguishes us from the competition.

Where else could you get a video production demo and be sweetened vintage recordings and photographs centered in three listener glory and your product packaging designed all with a single phone call?

This is made possible by a carefully thought out approach to the tools that make this possible. We understand that there are common aspects shared among the related services that we offer. While other companies don't make this connection and offer one or two specific services, we've been able to integrate everything from start to finish in multimedia and offer it all in a manner that simplifies your life.

One vendor replaces multiple specialty vendors, yet quality benefits from this a la carte approach. This latter attribute has to do with the expertise of our staff and the architecture of how we set up shop.

We don't look at our business as solely a means to a profit. It is a passion-an obsession-which drives us to be the very best out of pride in our work. Instead of using outdated equipment because "it's good enough," we refresh our technology when there is a benefit in the product quality.

Dealing with larger companies can be

A view of our automated editor, workstations, large used to track a video story. These workstations are used for video production, 3D animation, sound recording, telephone and music room editing and DVD/Blu-ray authoring.

a real inconvenience. A lack of responsiveness, inter-departmental bureaucracy and aging, but expensive equipment define these dinosaurs.

Streamlining our work environment is another means of maintaining high quality while controlling costs. With just a couple of people we can take a video production from shoot to DVD in just a week-something that not long ago would take 6 months and a staff of 50 occupying 4 floors of an office building. That kind of integration makes for a quantum increase in the value that our clients receive, both in terms of the quality of the product and the time with which delivery was achieved.

Under our roof are facilities for color program/graphic design, 3D animation, video production, DVD/Blu-ray mastering, music production and sound recording & mastering. There's something for everyone here! ❑

Maximizing Profits via Video

With so effective communication strategy between you and your clients you can eliminate a lot of wasted resources on ineffective marketing strategies.

Video Blogging is becoming a new method by which to convey breaking news about company services, special offers and policies. You can reach clients though e-mails, your corporate web site, and even through direct sent through postal mail.

A professionally-produced presentation makes all the difference. Timing is critical because you only have seconds to capture your viewer's attention and if your presentation doesn't catch them in those few seconds you've lost them. That's why it's so important to have your video communications produced by professionals who have the skills to identify the core of your important message and find the "hooks" to grab the attention of your target audience.

Your message to be heard has to be loud and clear too. With great audio that maximizes the intelligibility of every word to clear pictures that show every detail and make your points stand out crystal-clear.

This is where the difference between a webcam and a professionally produced presentation stands out. It increases the value of your message ❑

Offloading Video Demand

With the explosion of free online video streaming sites like YouTube and Vimeo, business owners now have a choice about hosting their video content in an economical way.

For small businesses, it can be a significant expense to buy the necessary bandwidth to meet expected viewing traffic. Not only that, but wrangling estimating the traffic volume can result in overages or simply over-payment if you don't use all the bandwidth you paid for.

An increasing number of economically-efficient small businesses and even larger corporations are relying upon publicly-hosted video web sites to bear the burden of video traffic bandwidth.

The process is simple. Those sites have a string of "embed" code for each video clip that you upload. All you need to do to embed the media player into your web page is copy and paste the code into the HTML for your web page. Visitors click the video link on your page and watch it from within your page. The larger sites are offering 720P HD as an option, so the quality is unbeatable and you save money ❑

How Can I Test My Fax Machine?

How Can I Test My Fax Machine?

Submitted by Smart Computer User on December 9, 2008 - 12:00pm

Presumably you want to test your fax machine by sending a fax from it and receiving a fax with it. Here's how to do both

To test the send functionality of your fax machine: send a one-page fax to 1-510-545-0990 (a number in Northern California.) When it's finished transmitting, point your web browser to Fax Toy http://faxtoy.net/ — it's a fun web site that displays whatever is faxed to that number. Within a minute, your fax should appear on the site. Click the thumbnail to see a large version

To test the receive functionality of your fax machine, point your web browser to FaxZero: http://faxzero.com/ this site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring — hopefully, it will automatically answer and spit out the test fax

Tip to the right are pages that folks have faxed us recently. Click any thumbnail to see the large version and read it for interestingness.

You can fax something interesting to 1-866-877-1855 (your page will never notice... maybe) or 1-503-208-1309 (long distance to Portland, Oregon) and it should appear here within a couple of minutes. (It's a toll-free number if you're in the USA.) Keep it clean & legal.

Fax single page documents with no cover sheet. If you fax more than one page, only the last page will appear here...We try to snip off the top few pixels of the page where your company name and fax number should appear...but make no promises that this will actually work.

Privacy Policy: We hate spam and junk faxes, and will emphatically not send you any unsolicited e-mail or faxes. We won't share your information with marketers or anyone else.

This is a demo of Word Form PDF Form Conversion

eDocPrinter PDF Pro Word-addin supports converting Word Form to PDF Form since Ver 6.03 Build 2980. Users have to enable Word Form to PDF Form conversion in settings of Addin. Users can also set other options like border color, text color, and field background color in the setting dialog. Since 6.20 Build 4268, the addin will automatically detect the font size, maximum characters, and color when converting the fields. Hence each field can have its own font size, color, and background color.

In addition to the text field, dropdown list, and check box supported by Word, eDocPrinter PDF Pro addin also supports multi-line text fields, submit, and reset button with its proprietary naming scheme. This makes the PDF form easily integrate with the web interactions.

Please enter your name: Please enter your name in the text field

This This is a TEXT FIELD DEMO

☒ Check this box if you think it's good!! ☒

This is a dropdown menu for selection ITEM1

Text field 2 Check box 2 ☐

How to create a Multi-line text box field
Just name the text field box with "ML_" prefix and enable converting multi-line text filed. Since 6.19 Build 4997, the prefix is changed to "ML_num_", when num means the num of lines. Default value is 4 is no such _num_ assigned. Here is a demo

How to create Submit and Reset button?
Users have to insert a text field with its name equal to "SubmitForm". The value of this field will be the text shown on submit button after converting to PDF. The default text of this field will be the action URL for submitting. It's a rule for creating "ResetForm" button. Users can choose the submit data format and method in the setting dialog of Word-addin of eDocPrinter PDF Pro. Example of SubmitForm and ResetForm buttons

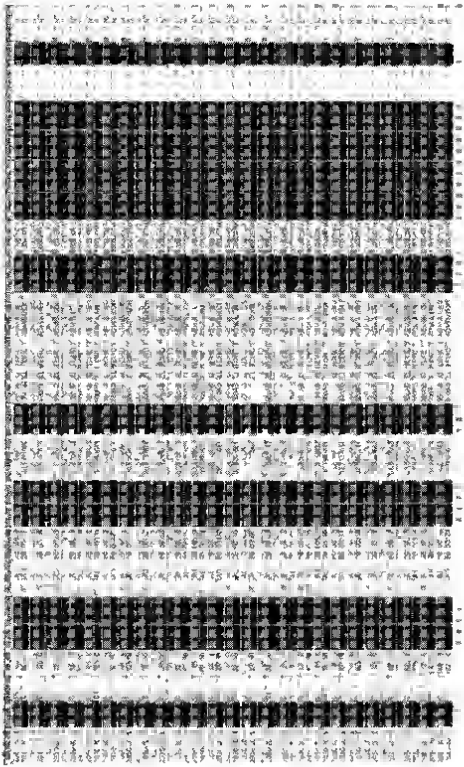
Hail Mary

Today begins the 90th Anniversary of the appartition of the Virgin of Fatima

When you receive this email say a Hail Mary and ask for a special favor

"Hail Mary, full of grace. The Lord is with thee. Blessed art thou among women and blessed is the fruit of thy womb, Jesus. Holy Mary, Mother of God, pray for us sinners now and at the hour of our death, Amen." (your request)

Please do not break the Novena , send it to 12 people you think deserve justice, peace, love, health, prosperity and truth. When you are down to nothing, God is up to something. This has been traveling since 5/13/07!



Some states or provinces do not allow the exclusion or limitation of incidental or consequential damages for consumer products, and some states do not allow limitations on how long an implied warranty lasts, so the above limitations or exclusions may not apply to you. This Limited Product Warranty gives you specific legal rights, and you may also have other rights which vary from state to state. You may also be protected by applicable state and provincial laws. If you have any questions regarding your rights under this Limited Product Warranty or would like information about obtaining warranty service, please contact Gateway.

C. Obtaining Warranty Repair Service

If the Purchaser's product was purchased and/or the Purchaser is covered by Warranty service in the United States (only Puerto Rico and Virgin Islands) or Canada, the Purchaser is entitled to Mail-in service during the Warranty Period, subject to the following terms and conditions:

1. Before requesting warranty service, please review the troubleshooting guide in the User Guide. This will help you avoid any additional costs and quickly get you back to using the product.
2. If you are a Purchaser in the United States, you may contact us via the Contact Information section at the bottom of this page.
3. If repair is necessary during the Warranty Period, you will be required to complete a Return Merchandise Authorization (RMA) request and provide proof of purchase (a copy of your receipt for the product). You must follow all RMA procedures and deliver the product, postage prepaid, to the repair center designated by Gateway. You must pay all shipping, insurance, export taxes, customs duties, and taxes or any other charges associated with the replacement of the product. Gateway is not responsible for insurance for your product returned to us and for loss of or damage to your product.
4. Unless otherwise stated in writing, Gateway is not responsible for data lost on the Product's hard drive. The RMA number must be clearly marked on the exterior of the shipping container.
5. You must provide valid proof of purchase (receipt) in order to be eligible for warranty service.

D. INITIAL SETUP

Before turning on your computer, plug the power cord and the cable for the keyboard, mouse, and telephone (if applicable) into the back of the computer. Do not plug the battery pack into the AC power adapter until the battery is properly aligned with the pins on the adapter. Do not plug the AC power adapter into the wall power outlet until all components are connected. For the most complete instructions on setting up your computer, see the User Guide.

Form **W-9**
(Rev. January 2011)
Department of the Treasury
Internal Revenue Service

Request for Taxpayer Identification Number and Certification

Give Form to the requestor. Do not send to the IRS.

Print or type
See Specific Instructions on page 2.

Name (as shown on your income tax return)

Business name/disregarded entity name, if different from above

Check appropriate box for federal tax classification: ☐ Individual/sole proprietor ☐ C Corporation ☐ S Corporation ☐ Partnership ☐ Trust/estate

☐ Limited liability company. Enter the tax classification (C=C corporation, S=S corporation, P=partnership) ▶ ☐ Exempt payee

☐ Other (see instructions) ▶

Address (number, street, and apt. or suite no.) | Requester's name and address (optional)

City, state, and ZIP code

List account number(s) here (optional)

Part I Taxpayer Identification Number (TIN)

Enter your TIN in the appropriate box. The TIN provided must match the name given on the "Name" line to avoid backup withholding. For individuals, this is your social security number (SSN). However, for a resident alien, sole proprietor, or disregarded entity, see the Part I instructions on page 3. For other entities, it is your employer identification number (EIN). If you do not have a number, see *How to get a TIN* on page 3.

Note. If the account is in more than one name, see the chart on page 4 for guidelines on whose number to enter.

Social security number

			–				–	

Employer identification number

			–					

Part II Certification

Under penalties of perjury, I certify that:

1. The number shown on this form is my correct taxpayer identification number (or I am waiting for a number to be issued to me), and
2. I am not subject to backup withholding because: (a) I am exempt from backup withholding, or (b) I have not been notified by the Internal Revenue Service (IRS) that I am subject to backup withholding as a result of a failure to report all interest or dividends, or (c) the IRS has notified me that I am no longer subject to backup withholding, and
3. I am a U.S. citizen or other U.S. person (defined below).

Certification instructions. You must cross out item 2 above if you have been notified by the IRS that you are currently subject to backup withholding because you have failed to report all interest and dividends on your tax return. For real estate transactions, item 2 does not apply. For mortgage interest paid, acquisition or abandonment of secured property, cancellation of debt, contributions to an individual retirement arrangement (IRA), and generally, payments other than interest and dividends, you are not required to sign the certification, but you must provide your correct TIN. See the instructions on page 3.

Sign Here | Signature of U.S. person ▶ | Date ▶

General Instructions

Section references are to the Internal Revenue Code unless otherwise noted.

Purpose of Form

A person who is required to file an information return with the IRS must obtain your correct taxpayer identification number (TIN) to report, for example, income paid to you, real estate transactions, mortgage interest you paid, acquisition or abandonment of secured property, cancellation of debt, or contributions you made to an IRA.

Use Form W-9 only if you are a U.S. person (including a resident alien), to provide your correct TIN to the person requesting it (the requester) and, when applicable, to:

1. Certify that the TIN you are giving is correct (or you are waiting for a number to be issued),
2. Certify that you are not subject to backup withholding, or
3. Claim exemption from backup withholding if you are a U.S. exempt payee. If applicable, you are also certifying that as a U.S. person, your allocable share of any partnership income from a U.S. trade or business is not subject to the withholding tax on foreign partners' share of effectively connected income.

Note. If a requester gives you a form other than Form W-9 to request your TIN, you must use the requester's form if it is substantially similar to this Form W-9.

Definition of a U.S. person. For federal tax purposes, you are considered a U.S. person if you are:

- An individual who is a U.S. citizen or U.S. resident alien,
- A partnership, corporation, company, or association created or organized in the United States or under the laws of the United States,
- An estate (other than a foreign estate), or
- A business trust (as defined in Regulations section 301.7701-7).

Special rules for partnerships. Partnerships that conduct a trade or business in the United States are generally required to pay a withholding tax on any foreign partners' share of income from such business. Further, in certain cases where a Form W-9 has not been received, a partnership is required to presume that a person is a foreign person, and pay the withholding tax. Therefore, if you are a U.S. person that is a partner in a partnership conducting a trade or business in the United States, provide Form W-9 to the partnership to establish your U.S. status and avoid withholding on your share of partnership income.

Files Not Found During The Copying Stage

If you get files not found during the copying stage restart the repair install after inspecting the CD for any surface imperfections and if you have multiple CD drives, switch to the other CD drive

Also check the hard drive cables making sure they are the proper cable and seated tightly in the connections.

If the problem is not resolved..and you have no other option, continue with the install by closing all the files not found message windows until setup finishes.

Apply the **XP firewall** then run Windows update after reaching the desktop and the missing files should be replaced.

You should backup ALL data if you haven't done so prior to the repair install before making any other changes to the system.

If the system seems unstable, run defrag, reboot a few times and trouble shoot any error messages. If system cannot recover, double check if you have all data you can not replace backed up and the proceed with a **Clean Install**

Proponowane zmiany

1 **Ujednolicenie punktacji.**

Istnieją rażące w punktacji w dotychczasowych kryteriach. Za te same osiągnięcia otrzymuje się inną liczbę punktów w różnych stypendiach. Natomiast niektóre osiągnięcia nie są brane pod uwagę w innych stypendiach. Wskazane jest ujednolicenie kryteriów dla wszystkich stypendiów

2. **Dwa parametry oceny przez opiekuna naukowego/promotora.**

Uproszczenie przyznawania punktów za działalność doktorancką. Prawie każdy doktorant dostaje maksymalną liczbę punktów. Parametr wymagany więc proponuje się uproszczenie. Wzór wniosku.

3 Limity na niektóre osiągnięcia

Limity na niektóre osiągnięcia są sprowadzone tym, że łatwo je dostać zdobyć mniejszym nakładem pracy

4. **Sufit limitów na najważniejsze osiągnięcia.**

Dotyczy osiągnięć kluczowych dla rozwoju nauki i ważnych dla Uniwersytetu. Uwzględnione tutaj, za które trzeba poświęcić dużą ilość czasu i zaangażowania, które są najistotniejsze tj. publikacje z listy A wykazu MNiSW, udział w grantach oraz wieloośrodkowych projektach, udział w konferencjach o zasięgu międzynarodowym, oraz zgłoszenia w Urzędzie Patentowym.

5 Usunięcie punktowania za udział w komisji

6. Usunięcie limitu maksymalnego **w stypendium dla najlepszych doktorantów**

7 Wniosek **na stypendium doktoranckie i projektowe uproszczenie (Punktacja bazowa na podstawie sprawozdania rocznego)**

SAN Zoning

In a simple SAN configuration where only 1 or 2 hosts are connected zoning is not terribly important however in more complex SANs where many hosts of different types and OSes along with tape libraries are connected zoning becomes crucial. Essentially the goal of zoning is to isolate the connected hosts from each other for security purposes. For example say you have both unix and windows hosts connected to the SAN along with a fibre channel tape library. You may want your Unix Netbackup or Legato server to control the tape devices but you discover that when the windows box rebooted following a blue screen that it saw the tape drives and automatically loaded drivers for them and configured windows to use them. Next the clueless windows admin notices this and starts doing windows backups on top of your carefully taped. If you're the SAN administrator you'll probably start reading up on zoning between job interviews.

SAN Types

There are 3 types of zones.

- Port Zones - These are zones where physical ports on the switch are placed into a zone
- WWN Zones - These are zones where World Wide Numbers are zoned together. A typical example would be the worldwide numbers of an array controller port being zoned with the world wide number of an HBA in a host
- Mixed Zones - These zones contain at least 1 port number and 1 WWN

Important

For best security the zones should be hardware enforced and not software enforced. This is often referred to as "Hard Zoning" and "Soft Zoning". The distinction is that with software enforced zoning security is based on the assumption that hosts and devices logging into the switch fabric will only rely on the fabric name server for finding devices on the SAN. This is possibly a weak assumption. With hardware enforced zoning a host that is not zoned to see another device on the SAN will be prevented at a hardware level from seeing the device.

For newer Brocade silkworm switches, zones containing only

Please continue the setup process on your PC or mobile device to automatically activate your printer with HP Connected.

If you are NOT setting up for the first time, you can still manually activate your printer with HP Connected:

1. Visit hpconnected.com
2. Select the Devices tab, and click Add a Device
3. Enter printer's claim code: xxxxxx (hint:)

Video provides a powerful way to help you prove your point. When you click Online Video, you can paste in the embed code for the video you want to add. You can also type a keyword to search online for the video that best fits your document.

To make your document look professionally produced, Word provides header, footer, cover page, and text box designs that complement each other. For example, you can add a matching cover page, header, and sidebar. Click Insert and then choose the elements you want from the different galleries.

Themes and styles also help keep your document coordinated. When you click Design and choose a new Theme, the pictures, charts, and SmartArt graphics change to match your new theme. When you apply styles, your headings change to match the new theme.

Save time in Word with new buttons that show up where you need them. To change the way a picture fits in your document, click it and a button for layout options appears next to it. When you work on a table, click where you want to add a row or a column, and then click the plus sign.

Reading is easier, too, in the new Reading view. You can collapse parts of the document and focus on the text you want. If you need to stop reading before you reach the end, Word remembers where you left off - even on another device.

Thank you for your interest!

Notes: 1. Due to the malicious use of the FreeFax service, Interpage will no longer transmit personalized text messages, only the above fixed sample message will be transmitted. You may establish a trial account for evaluative purposes by filling out the enclosed form on page 3, and clearly indicating a valid e-mail address and contact telephone number. Please call (510) 315-2750 for additional details.

2. This fax is not a solicitation nor is at an offer. It was sent by a visitor to Interpages web site who entered your destination number as a recipient of th s test fax. A single destination may not receive more than two tests in a given week, however. If you find that someone is sending you faxes in a continuous and abusive manner, please tell us at (510) 315 2750 and we will block your fax number from the FreeFax service.

Other Interpage Free service trials:

Does your voicemail call you?
Interpage VoiceMail will alert you before and after a caller leaves a message, send a WAV audio file of received messages to your phone or e-ma l, and even call you and play the received message at one or more telephone numbers! For details, visit: interpage.net/voicemail

Multiply the value of your old pager!
Like having a pager but need to receive messages on your cellphone or email as well? Want to have the same functionality as a pager on your cellphone without having to give out your cellphone number? Would you like to schedule and filter received pages and emails to multiple cellphones, pagers, and email accounts? Try Interpage's DirectPage service. For details, visit: interpage.net/directpage

Know for sure that urgent alerts are received!
OutVoice text to-speech and WAV file telephone dialout/broadcast verbally notifies landlines and cellphones, and can prompt the recipient to confirm receipt so senders can be certain that alerts are received! For details, visit: interpage.net/outvoice

SEND MONEY / ENVÍE DINERO

MoneyGram. money transfer | Walmart Money Transfer | 2 Walmart

ATTENTION ASSOCIATE : Staple the Receipt Here

Important Information Información importante

Please Read: MONEY TRANSFER FRAUD WARNING

Answer the questions below to help **KEEP YOUR MONEY SAFE**

- Are you sending money returning an overpayment or "escrowing" money to buy a car or other goods or to rent an apartment?
- Are you sending money to claim lottery or prize winnings or for a "guaranteed" credit card or loan?
- Are you responding to an internet offer, letter or phone call that asks you to wire money for a "job offer" or "mystery shopping"?
- Are you sending money to someone out of the state or country who claims to be a relative needing cash for an emergency?
- Are you sending money to someone you don't know or whose identity you can't verify?

If you answered YES to any of the questions **DO NOT SEND** the money transfer – someone may be trying to steal your money. If you have already sent it, ask the sales clerk to **STOP your transfer immediately** or call us at MoneyGram 1-800-926-9400 or Ria at 855-355-2145. Once your money has been picked up, which can happen within a short time, you cannot get a refund, even if someone stole your money through fraud.

¡ATENCIÓN! ¡LEA ESTA INFORMACIÓN! ADVERTENCIA DE FRAUDE SOBRE TRANSFERENCIAS DE DINERO

Responda las siguientes preguntas para ayudarnos a **MANTENER SU DINERO SEGURO**.

- ¿Está enviando dinero, devolviendo un sobrepago o depositando dinero en una "cuenta de garantía" para comprar un auto u otros artículos o para alquilar un apartamento?
- ¿Está enviando dinero para solicitar premios de lotería u otros premios o para solicitar una tarjeta de crédito o préstamo "con garantía"?
- ¿Está respondiendo a una promoción en Internet, una carta o una llamada telefónica que le solicita enviar dinero por una "oferta de trabajo" o "compra misteriosa"?
- ¿Está enviando dinero a una persona fuera del estado o país que dice ser un pariente que necesita efectivo debido a una emergencia?
- ¿Está enviando dinero a una persona que no conoce o cuya identidad no puede verificar?

Si respondió SÍ a cualquiera de las preguntas **NO ENVÍE** la transferencia de dinero, alguien podría estar tratando de robarle el dinero. Si ya la ha enviado, pídale al empleado de ventas que **DETENGA su transferencia inmediatamente** o llámenos a MoneyGram 1-800-926-9400 o Ria al 855-355-2145. Una vez que su dinero haya sido retirado, lo cual puede suceder en poco tiempo, no podrá obtener un reembolso, aun cuando alguien le haya robado su dinero por medio de fraude.

CURRENCY EXCHANGE: In addition to the Consumer Fee, the exchange rate may differ from the rate posted at the time you send money. Please see the attached terms and conditions for more information regarding currency exchange. CASH IN MEXICO: Advise the cash is available. MoneyGram transfer may differ; a total of fifty transfers per year. For those not receiving a confirmation receipt, note that there is a limit of twenty transfers.

Physical Exam

Procedure.

The procedure, indications, preparation and potential complications were explained to the patient who indicated understanding and signed the corresponding consent forms. MAC with IV sedation was administered by nurse anesthetist. Continuous pulse oximetry, blood pressure, and cardiac monitoring was done. Supplemental oxygen was used. The quality of preparation was good. Patient was placed in left lateral decubitus position. The colonoscope was introduced through the rectum and advanced under direct visualization until splenic flexure reached at a distance of [Sites Reached Distance] cm. Visualization of [Sites Poorly Visualized] was poor. The colonoscope was retroflexed within the rectum. Careful visualization was performed as the instrument was withdrawn. Patient tolerance to the procedure was good. The procedure was not difficult. Digital exam was normal with the following findings: [Digital Exam Findings]. The colonoscope was withdrawn in a thorough circumferential fashion with careful view of the entire colon.

Sal's Legendary Spaghetti Sauce

1 small can tomato paste
3 cans tomato sauce (10 or 12 oz.)
3 cans of chopped tomatoes (10 or 12 oz.)
6 large cloves of garlic chopped fine
3 oz. of olive oil
1/2 onion (chopped course)

Saute onions in olive oil in frying pan. Add chopped garlic, saute until garlic and onion are done but not browned.

In a large pot, put in all cans of tomatoes. Add sauteed garlic, oil, and onions. Stir well and add 2 Tablespoons of Allspice and 2 tablespoons of ground sweet basil (or fresh), 1 tablespoon of sugar, and 4 oz. of sweet Marsala wine. (Wine optional)

Simmer for 30 minutes to an hour, stir often
You can add more allspice and basil to suit your taste.
I use a LOT of allspice

How Can I Test My Fax Machine?

I just hooked up a new fax machine and I'd like to test it, just to make sure it works. How can I do that?

Presumably, you want to test your fax machine by sending a fax from it and receiving a fax with it. Here's how to do both:

To test the send functionality of your fax machine, send a one-page fax to 1-855-330-1239 (a toll-free number in the United States.) When it's finished transmitting, point your web browser to Fax Toy — it's a fun web site that displays whatever is faxed to that number. Within a minute, your fax should appear on the site. Click the thumbnail to see a large version.

To test the receive functionality of your fax machine, point your web browser to FaxZero: this site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring — hopefully it will automatically answer and spit out the test fax.

1939 Ray Stevens Clarkdale Georgia musician (best known for his novelty songs)
1941 Neil Diamond Brooklyn, New York, singer
1968 Mary Lou Retton, Fairmont, West Virginia gymnast (Olympics-gold/2 silver/2 bronze-84)

HISTORICAL HAPPENINGS:

1848 James W Marshall finds gold at Sutters Mill near Sacramento marking the beginning of California Gold Rush

Three tourists climbed up the tower with London s Big Ben and decided to throw their watches off the top run down the stairs and try to catch them before they hit the ground

The first tourist threw his watch but heard it crash before he had taken three steps The second threw his watch and made only two steps before hearing his watch shatter

The third tourist threw his watch off the tower went down the stairs, bought a snack at a shop up the street and walked slowly back to Big Ben in time to catch the watch

"How did you do that? asked one of his friends.

"Easy My watch is 20 minutes slow "

WARNING! ENTERING THE PUN ZONE!

One day the pigeons needed to make a long trip. But baby pigeon said: I can t make it, I ll get too tired

His mother said Don't worry I'll tie a piece of string to one of your legs and the other end to mine

The baby started to cry What's wrong? asked the mother

I don t want to be pigeon towed! Said the baby!

After a trial had been going on for three days, Finley the man accused of committing the crimes, stood up and approached the judge's bench "Your Honor, I would like to change my plea from Innocent to guilty of the charges."

The judge angrily banged his fist on the desk. "If you re guilty, why didn't you say so in the first place and save this court a lot of time and inconvenience?" he demanded

Finley looked up wide-eyed and stated, "Well when the trial started I thought I was innocent, but then was before I heard all the evidence against me "

TODAY IN TRIVIA **How did the California Gold Rush affect San Francisco?** Between January 1848 and December 1849 the population of San Francisco increased from 1 000 to 25 000. The rapid growth continued through the 1850s and under the influence of the 1859 Comstock Lode silver discovery This rapid growth complicated city planning efforts, leaving a legacy of narrow streets that continues to cause unique traffic problems today San Francisco became America s largest city west of the Mississippi River until it lost that title to Los Angeles in 1920.

Act of Contrition

O my God I am heartily sorry for having offended you, and I detest all my sins because of Your just punishments but most of all because they offend You, my God, who are all good and deserving of all my love I firmly resolve with the help of Your grace, to sin no more and to avoid the near occasion of sin.

Re: Request for Donations for Soccer Tournament on May 25th 2013 in Fargo

Cultural Diversity Resources (CDR) is a 501(c)3 tax exempt nonprofit. Our EIN number is 41-1836836. CDR was first established in 1994 by community leaders as a regional diversity initiative to address the growth of ethnic diversity in Cass County, North Dakota and Clay County, Minnesota.

Cultural Diversity resources (CDR)'s mission is to 'Build Communities that Value Diversity' which includes programs and services such as: (1) Annual Diversity Conference and Champions for Diversity Awards, (2) Intercultural Leadership Development (3) Intercultural Art Development Center for museum display and performances (4) Self-sufficiency Retreats and Assistance, (5) Native American Unity Project and (6) Cultural Events e.g. Fargo Cultivate our Cultures and summer multi-ethnic picnic.

Ben Bowey is a member of CDR's New Americans Community Development (NACD) committee which is part of CDR's Multi Ethnic Leadership Development Program. He is the organizer for the soccer tournament on May 25th 2013 (Saturday) from 10:00 a.m. to 6:00 p.m. at Johnson Soccer Field. At least six soccer teams from Fargo (2), Grand Forks (1), South Dakota (1), MN (1) and Iowa (1) will be competing at this soccer tournament. The soccer participants are New Americans/refugees from different countries such as Sudan, Sierra Leone, Liberia, Central African, Burundi, Iran, Iraq, and Kurdistan. "One nation, multiple cultures, many languages, all the people" is the Fargo's official diversity motto. Fargo is only

CDR will greatly appreciate your support for any of the following donations for 100 participants

(1) Six sealed cases of bottled water of Fargo
(2) Bottled Water (20 cases)
(3) Gatorade or Soft Drinks (16 cases)
(4) Juice drinks (10 cases)
(5) Three soccer balls
(6) Tea chairs
(7) Two sets of soccer jerseys
(8) Rent ($60) for soccer field
(9) Payment for 3 soccer referees ($20x3=$60)
(10) Medical supplies (bandages, ice packs, 2nd aid kit, etc.)
(11) Meat, chicken, beef, vegetables, oil and flour or cooking ingredients.
(12) Other (please, specify, thank, you very much)

Please feel free to call me at (701) 356-3600 or Ben Bowey, Soccer Tournament Organizer at (701) 388 9196. We hope to hear from you soon before July 28, 2012. Thank you for the consideration.

Test

S.S.

I just hooked up a new fax machine and I'd like to test it, just to make sure it works. How can I do that?

Presumably, you want to test your fax machine by sending a fax from it and receiving a fax with it. Here's how to do both.

To test the send functionality of your fax machine, send a one-page fax to 1-855-330-1239 (a toll-free number in the United States.) When it's finished transmitting, point your web browser to Fax Toy — it's a fun web site that displays whatever is faxed to that number. Within a minute, your fax should appear on the site. Click the thumbnail to see a large version.

To test the receive functionality of your fax machine, point your web browser to FaxZero - this site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring — hopefully, it will automatically answer and spit out the test fax.

REGENERATIVE HEALTH PLAN
Cleanse & Overcome Infections and Degenerations

AVOID

- Spleen/Pancreas-weakening dampness antagonizing (see "Dampness" and Earth Element Chapter in HWWFs) and damp-heat fostering foods (e.g. most fried foods)
- Meat fruit and all simple sugars including all sweeteners such as maple sugar/syrup molasses agave turbinado barley malt rice syrup date dream, amasaka date sugar, agave syrup (see Sweetener Options in the "EAT" category). All berries, pomegranate, lemon and lime are the suggested fruit.
- Excess red meat, especially fatty beef. Eggs promote damp-heat and often obstruct the liver/gall bladder.
- Excess carbohydrates, especially refined carbohydrates like white flour pasta donuts, white sugar & pastries. Even whole wheat products unless sprouted
- Cow dairy products including butter, though raw goat milk yogurt, kefir & cheese are sometimes tolerated after a few months.
- Fermented foods (e.g. most soy sauce & miso, yeast breads, vinegars). Unpasteurized miso & soy sauce can sometimes be tolerated in small amounts. See also "...ive ferments" in "EAT" list
- Oily and oily foods (fried foods, flax oil, hemp oil and olive oil are okay in small quantities). Avoid butter, ghee, and coconut oil
- Alcoholic beverages.

EAT

- Plenty of vegetables (all except yam/sweet potato) especially greens such as cilantro, broccoli, cabbage, kale and collards.
- Substantial protein in the form of well-cooked tempeh natto, whole beans mung beans, bean sprouts of all kinds or any other legume (bean pea or lentil). An oral products may be needed e.g. low-mercury wild fish cage-free poultry, or grass fed beef or buffalo.
- Substitute yeast free rye bread and grains such as buckwheat corn, millet quinoa, amaranth oat groats and teff where possible. Grains 20% of diet. Sprouted grains as an option can accommodate up to another 20%. Ezekiel™ sprouted flourless tortillas are sprouted examples without yeast, or sprout your own grains, then steam or simmer them.
- In cases of excess phlegm eat radishes or daikon radish (3 oz daily) and mushrooms.

Notes. This RHP is ideal for overcoming "damp" conditions such as yeast and fungal overgrowth, parasites, viruses and other infections. Nearly all degenerations (cancer, arthritis, diabetes, obesity, heart disease) are marked by infections. The RHP also cleanses from the body heavy metals, pesticides and all chemical toxins while it boosts immunity by providing cell, fat removal and protection for all bodily tissues. The RHP is a template that can be adapted

- Sweetener Options: green stevia powder or green liquid extract (e.g., by Planetary Herbals) or yacon sweetener + erythritol (Smart Sweet™).
- Nuts & Seeds—choose from among these: flax seeds hemp seeds chia seeds almonds and/or roasted pumpkin seeds (can be a snack)
- Clean up 5-6 Ch ovella® tablets with food: snacks or at end of meals—at least 2x per day or anytime to reduce sugar cravings.
- Live Ferments—Raw sauerkraut & pickles (saltless are best), rejuvelac, raw vinegar...etc
- Garlic—mince finely and mix into food 1-2x per day. Raw onion also helps
- Cook with seaweeds such as kombu in bean/legume dishes, wakame in soups, nori flakes sealant into grains

RESTABLISH good flora in the intestinal tract with a soil/sperm-based prebiotic supplement such as Interspore [InterXPlora™ or Flora Balance™] Primal Defense Ultra™ formula is fine but coagulates. Acidophilus supplementation may also help. Ideal acidophilus is ODB 1 type

SIMPLE FOOD COMBINING – yeast overgrowth and all other infections can thrive on byproducts of partially digested fermentation caused by improper food combining. Check out Plan B food combining and "how the gut feels" in *Heal Any with Whole Foods*. However, if you need greater at most meals then adapt Plan B to your needs

ENHANCE YOUR LIFE

Exercise is essential to burn up damp infections and all pathogenic excesses

Adequate rest is essential for profound healing—awareness practices such as meditation, prayer and mantra build a strong spirit that guides renewal

CLEANSE toxins and pathogenic microbes further if needed with substances such as aloe vera juice, chlorella, oxygen* medicinal mushrooms, organic essential oil, cereal grasses (e.g. barley grass) spirulina/green blue green algae and grapefruit seed extract (GSE). Choose among these items based on your constitution and condition. Also consider taking digestive enzymes if you have weak digestion. To optimize effectiveness of supplements, 1 day each week, take no supplements of any kind.

* An ideal form of chlorella is the exceptionally pure Pines Chlorella. (Order it at 888-277-7393) One of the most reliable sources of liquid stabilized oxygen is the original formula Zeolite Booster by E.E. Goodloe. (To order send email inquiry to woodsjoe.com)

Welcome to

Windows® Fax and Scan

One place to scan and fax your documents

FAX: You can send and receive faxed documents on your computer without using a fax machine. You can also print, e-mail, or save a copy of your faxes.

To get started

1. Connect a phone line to your computer.

   If your computer needs an external modem, connect the phone to the modem, and then connect the modem to your computer.

2. On the toolbar, click **New Fax**.

3. Follow the instructions in the setup wizard to connect to a fax modem, and then, when you're finished, create your fax.

To connect to a fax server instead of a modem, contact your system administrator. For more help with faxing, click the **Help** button on the toolbar.

SCAN: After you add a scanner to your computer, you can preview documents or pictures before you scan them, and then adjust your scan settings for better results. You can also fax or e-mail scanned files to someone else.

To get started

1. Connect your scanner to your computer by following the instructions that came with your scanner, and then place a document or picture on the scanner.

2. In Windows Fax and Scan, at the bottom of the left pane, click **Scan**.

3. On the toolbar, click **New Scan**.

4. Choose the scan settings you want to use, and you're ready to scan.

Use the options on the toolbar to fax, e-mail, print, or copy scans at any time. For more help with scanning, click the **Help** button on the toolbar.

Case type I-765 Application for Employment Authorization
Applicant Amish Chande
Receipt # WAC12903E717E (received May 31 2012)
Expedite service request # T1816512030S6CSC (processed on June 12 2012)
Attached (1) letter from Google supporting an expedited process (2) Signed offer letter from Google with a July 2012 start date (3) copy of receipt notice (4) copy of response from USCIS to expedited request
Date 7/6/12

Dear Case Officer

I am writing in response to your request for additional information to support an expedite request for my I 765 Application for Employment Authorization (receipt # WAC12903E717E)

On June 12 2012 I had requested over the phone that my I 765 application be expedited due to severe financial loss to me and visual or company (service request # T1816512030S6CSC) I had explained to the Case Officer that I had accepted an offer from Google to join their team in Mountain View CA starting July 2012 The offer letter I signed and had included in my original I 765 application was for a **July 2012** start date (please find attached)

Unfortunately I cannot start my employment with Google until I receive an approved EAD card If I don t receive this card prior to July 2012 I risk severe financial loss as my offer letter requires me to start during the month of July 2012 and may potentially be retracted if I am unable to start working in July 2012 In addition, the project I have been recruited to work on is underway and the team needs me to start in July 2012 I have attached a letter from Google supporting my expedite request so that I may start in July 2012

Please feel free to email me at aachande@gmail.com if you have any further questions or need additional information Thank you in advance for considering my expedite request

Regards

#2

To Whom it may concern,

I Jessica Knox will be out of the following units, 5515 Black St. Apt 2, on February 1, 2015. I wanted to note that I am very grateful for Sojourner Manor helping me to become a productive member of society. Recovery isn't easy, but it is all worth it. My stay here has made me feel secure and safe. I have been able to explore my options as a single mom and get the resources and help that I need. Anytime I needed my case manager Kyona White, she was there for me and my family. Her concern for my general well being is genuine. Not many now a days in a profession with those who have the disease of addiction can understand most not being one of us. I just want to give another thank you for being able to have this program as a stepping stone. My apartment was beautiful and more than enough.

Sincerely,

Jessica Knox

Cloud-to-Ground Lightning
A Newly Recognized Natural Resource Exploration Tool

Dynamic Measurement LLC

Introduction

Attributes is a mathematical combination, Hammild, lightning visible location and lightning visible attributes appear to be volumetric, if not controlled, by geology.

The belief was the creation of the Natural Lightning Detection Network (NLDN), and recent attributes to volumetric, visible has opened the door to field miles and mega millions of lightning strikes. This has shown identical behaviors, visible locations and attributes, these lightning attributes are mapped from instances from Florida, Louisiana, Michigan, New York, North Dakota, and Texas, pictures have been identified. Lightning will be directly varies spatially, and these variations are somewhat correlated over area that attributes are used to loosely geologic features

Louis are Lightning Strike Density

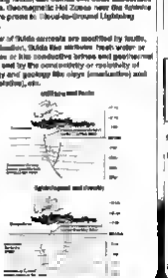
Louisiana Lightning Risk Time Highlights Subsurface Salt Waters.

LIDAR Analysis Comparison: Natural Source Electromagnetic Survey vs Lightning Risk Plot

Earth/Telluric Current

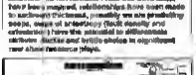
Run along faults, salt domes and other subsurface artifacts. Electromagnetic Hot Zones near the Subsurface are more prone to Cloud-to-Ground Lightning Strikes.

The flow of fluids connects are modified by faults, or mineralization, fluids like attributes fresh water or oil or gas or less conductive brines and geochemical features, and by the connectivity or resistivity of lithology and geology like clays (conductive) and salt (resistive), etc.

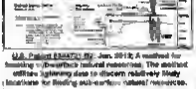


Locations Not Random

A distant lightning analysis where lightning strike locations are not random. From this work faults have been mapped, satellite data have been made to sediment thickness, possibility are the possibility pools, areas of predatory fluids density and extraction) have the potential to differentiate attributes faults and fluids shows to significant near shore resource plays.



U.S. Patent 8344675 B2 Jan. 2013; A method for assessing subsurface natural resources. The method utilizes lightning data to discern subsurface lightning locations for finding sub-surface natural resources.



DNA, lightning studies have been published in geologic conferences nationally and internationally as well as journals and magazines.

Conclusions

The process of lightning attributes are similar to the process of a nonlinear relaxation oscillator. In each case, voltage builds up over a period of time until an insulating gas breaks and becomes a conductor.

General Instructions

Purpose of Form

Use Form 8655 to authorize a reporting agent to:

- Sign and file certain returns. Reporting agents must file returns electronically except as provided under Rev. Proc. 2012-32. You can find Rev. Proc. 2012-32 on the IRS.gov page of Internal Guidance, at *https://www.irs.gov/pub/irs-irbs/irb12-34.pdf*.
- Make deposits and payments for certain returns.
- Receive restricted copies of tax information, Internal Revenue Service (IRS) and electronic communication regarding any authority granted; and
- Provide IRS with information to aid in penalty relief determinations related to the authority granted on Form 8655.

Note. An authorization does not relieve the taxpayer of the responsibility or from liability for failing to ensure that all tax returns are filed timely and that all federal tax deposits (FTDs) are made in accordance with FTDs are made timely. See section 5.05 of Rev. Proc. 2012-32. Employers who enroll in the Electronic Federal Tax Payment System (EFTPS) can view EFTPS authority and payments made on their payroll under their employer identification number (EIN).

Authority Granted

Online Form 8655 is **agents**; any authority granted is effective beginning with the period associated on lines 15 to 18 and continues indefinitely unless terminated by the taxpayer or reporting agent. A new authorization must be submitted to the Service for any increase or decrease in the authority of a reporting agent to act for the client. The preceding authorization remains in effect except as directed by the new one. No authorization or authority is granted for periods prior to the period(s) indicated on Form 8655.

Where authority is granted for any form, it is also effective for related forms such as the corresponding non-English language form, amended return, (Form 941 X, 941 XPR, 943 X, 944 X(PR), 945-X, or CT-1X), or payment transfer of address to the returns shown on lines 15 and 16. Form 8655 can be used to provide authorization for Form 944-SP using the entry spaces for Form 944. The form also can be used to authorize a reporting agent to make deposits and payments for state related on the Form 8109, such as Form 1129-C, using the entry spaces for Form 1120 on line 16.

Restricted authority reported on line 17 is effective on the date Form 8655 is received by the taxpayer. Any authority granted on Form 8655 does not rescind any previous authority granted on Forms 2848 or 8821 or any third-party designee checkbox authority.

Where To File

Send Form 8655 to:

Internal Revenue Service
authorized disregarded Service Center
MS 6746 RAF Team
1973 North Rulon White Blvd.
Ogden UT 84404

You can fax Form 8655 to the IRS. The fax is at 801-620-4142.

Additional Information

Additional information concerning reporting agent authorizations may be found in:

- Pub. 1474, Technical Specifications Guide for Reporting Agent Authorization and Federal Tax Depositors.
- Rev. Proc. 2012-32.

Substitute Form 8655

If you want to prepare and use a substitute Form 8655 see Pub. 167 General Rules and Specifications for Substitute Forms and Schedules. If your substitute Form 8655 is approved, the form number, "Internal Revenue Service printed in the upper left corner of each substitute Form 8655 you file with the IRS.

Revoking an Authorization

If you have a valid Form 8655 on file with the IRS, the filing of a new Form 8655 removes the authority of the prior reporting agent associated with the period indicated on the new Form 8655. However, the prior reporting agent is still an authorized reporting agent and retains any previously granted retainer authority for the periods prior to the beginning period of the new reporting agent's authorization unless specifically cancelled.

If the taxpayer wants to revoke an existing authorization, send a copy of the previously executed Form 8655 to the IRS at the location under "Where To File" and write "REVOKE" across the top of the form. If you do not send a copy of the authorization you want to revoke, state a statement to the IRS. The authorized agreements must mention that the authority of the reporting agent is terminated and must be signed by the taxpayer. Also, list the name and address of each reporting agent whose authority is revoked.

Withdrawing from reporting authority. A reporting agent can withdraw from authority by filing a statement with the IRS, either on paper or using a fillable process. The statement must be signed by the reporting agent (if filed on paper) and identify the name and address of the authority and authorizing taxpayer whose reporting agent is withdrawing. For information on the fillable process, see Pub. 1474.

Specific Instructions

Line 15

Use the "YYYY" format for federal tax returns. Use the "MM/YYYY" format for quarterly tax returns, where "MM" is the ending month of the quarter the named reporting agent is authorized or sign and file tax returns for the taxpayer. For example, enter 06/2019 on the line for "To" to indicate you are authorizing the reporting agent to sign and file Form 941 for the July-September quarter of 2019 and subsequent quarters.

Line 16

Use the "MM/YYYY" format to state the starting date, where "MM" is the first month the named reporting agent is authorized or sign deposits or payments for the taxpayer. For example, enter "06/2019" on the line for "From" to indicate you are authorizing the reporting agent to sign and file returns or deposit or payment for Form 720 starting in August 2019 and all subsequent months.

Who Must Sign

Electronic signature. For guidance on optional electronic signature methods, see Pub. 1474, Internal 01.06.

Sole proprietorship. The individual owning the business.

Corporation (including a nonprofit liability company (LLC) treated as a corporation). Generally, Form 8655 can be signed by: (a) an officer having legal authority to bind the corporation, (b) any person designated by the board of directors or other governing body, (c) any officer or employee on written request by any person listed in (a) or (b), or (d) any other person authorized to access information under section 6103(e).

Partnership (including an LLC treated as a partnership) or an unincorporated organization. Generally, Form 8655 can be signed by any person who was a member of the partnership during any part of the tax period covered by Form 8655.

Single owners. LLC treated as a disregarded entity. The owner of the LLC.

Trust or estate. The fiduciary.

Privacy Act and Paperwork Reduction Act Notice. We ask for the information on this form to carry out the Internal Revenue laws of the United States. Our authority to provide the information to authorized agents is contained in sections 6011, 6061, 6109, and 6302 and the regulations thereunder. We use this information to identify you and record your reporting agent authorization. You are not required to authorize a reporting agent to act on your behalf. However, if you choose to authorize a reporting agent, you are required to provide the information requested, including your identification number. Failure to provide all the information requested may prevent or delay processing of your authorization, providing false or fraudulent information may subject you to penalties.

Routine uses of this information include giving it to the Department of Justice for civil and criminal litigation, and to state, cities, the District of Columbia, and U.S. commonwealths and possessions for use in administering their tax laws. We may also disclose this information to state examiners under a tax treaty to federal and state agencies to enforce federal nontax criminal laws, or to federal law authorities agencies and intelligence agencies to counter terrorism.

You are not required to provide the information requested on a form that is subject to the Paperwork Reduction Act unless the form displays a valid OMB control number. Books or records relating to a form or its instructions must be retained as long as their contents may become important in the administration of any Internal Revenue law.

The time estimate to complete and file Form 8655 will vary depending on individual circumstances. The estimated average time is 1 hour 7 minutes.

If you have comments concerning the accuracy of the time estimates or suggestions for making Form 8655 simpler we would be happy to hear from you. You can send us comments from www.irs.gov/formspubs. Click on *More Information* and then click on *Give us feedback*. Or you can send your comments to Internal Revenue Service, Tax Forms and Publications Division, 1111 Constitution Ave. NW IR-6526, Washington DC 20224. Do not send

COCONUT

olfgang Amadeus Mozart was often called the eternal child His
ughtfulness, his joy and his genius created some of the most inspiring music
er written

ozart began listening to piano and violin music long before he was born
is father Leopold, was a great musician and often played the violin for his
nborn son When Wolfgang was born in Salzburg on January 27 1756 he
as immediately honoured as a world at music By the time Mozart was four
ars old he was already beginning to compose and play for his father's
mportant friends in the royal court

y the age of eight Mozart was writing great music, and in his short life at
early thirty are years he had written more than 600 major compositions,
cluding operas, symphonies concertos and great works for choir

wo hundred years after Mozart s birth Dr Alfred Tomatis a French
hysician, began to research the relationship between listening and learning.
n particular recognizing that children develop listening abilities even before
birth Dr Tomatis also discovered that playing Mozart s music can help to
develop speech improve movement and develop left brain or logical
thinking skills.

t the early 1990s at the University of California at Irvine research showed
hat spatial intelligence was greatly enhanced by listening to Mozart for ten
minutes before testing Subsequent studies showed that preschool children
iven general piano keyboard training could perform basic melodies by

Mozart and Beethoven after only six months. Additionally children given
this basic music education program showed dramatically higher spatial and
temporal intelligence than children taking computer lessons or given other
training The effects of this increased intelligence lasted longer in the
preschool children than the college students tested earlier.

Don Campbell author of *THE MOZART EFFECT*, a definitive work on the
power of music to heal the body strengthen the mind and unleash the
creative spirit, has compiled some of the best of Mozart s music, specially
selected to stimulate inspire and harness maximum benefits for children

Auditory tracking or focused listening can affect all aspects of life
including physical emotional spiritual and intellectual health Everyone
listens to music differently and no two people -- adults or children will
hear Mozart s music in the same way The same music may sound very
different after a big meal or while laying down daydreaming It may not
inspire "instant genius " but the music of Mozart prepares the mind and
body for learning creativity and rest

Mozart has a simple yet remarkable way of being clear organized and
efficient while not overly emotional His music enters the brain in ways that
are subtle yet powerful Even if Mozart may not be your favorite composer,
the music builds a healthy environment where children can learn listen
relax and create at their very best.

Vanguard

What's inside:
- IRA Recharacterization Form

IRA Recharacterization Kit

To authorize Vanguard to recharacterize all or part of your IRA contributions or conversions for the current or prior tax year

A recharacterization allows you to change an IRA contribution from one type of IRA to another. The change will be recorded as if the contribution was originally made to the second IRA. A recharacterization also allows you to reverse a recent Roth IRA conversion or rollover from a qualified plan to a Roth IRA by moving the assets back to a traditional IRA.

Important information about earnings and losses

The IRS requires that a recharacterization of a contribution or conversion be adjusted for earnings/losses starting with the original purchase date of the amount being recharacterized. The earnings/loss calculation performed by Vanguard is based on the performance of the holdings in the entire IRA in accordance with IRS Final Regulation 1.408-11.

If the earnings calculation results in a gain, the principal amount being recharacterized and the associated earnings will be transferred to the receiving IRA. If the calculation results in a loss, the principal amount being recharacterized will be reduced by the negative earnings rate and then transferred to the receiving IRA.

For more information about earnings and losses, refer to IRS Publication 590.

NEWS from BRIDGEHAVEN

Our Mission:

To empower choices for life through Christ-centered education and support.

Volume 27, Issue 9
September 2012

2012 Scholarship Recipients

Amanda

For the [illegible] year, Bridgehaven had the privilege of awarding scholarships to [illegible] to attend Kirkwood Community College and further their education. Scholarships are made possible [illegible] annual donation. This year's recipients were Amanda McDonald and Chimey Dubovnen.

Amanda is pursuing her [illegible] education at Kirkwood and desires to become a [illegible]. In her essay explaining her goals, Amanda wrote, "If I were granted a Kirkwood scholarship, it would be an answer to my prayers and dreams. I am more than ready to be a strong, independent, [illegible] woman with a college degree, a career, a family [illegible], and the Lord guiding my path [illegible]. I dream of the day when I can say I am ready to stand on my own two feet, and be the mother and provider I so desperately desire. I want to be the one who despises my [illegible] [illegible] because I have been there, [illegible]. [illegible] how I changed my life by getting an education and [illegible] a career which helps me support my family."

Chimey

Chimey received a [illegible] scholarship last year and we are pleased to assist her again this year [illegible] her education. Chimey is pursuing a [illegible] photography [illegible] and [illegible] help [illegible] photographs [illegible] they can afford. [illegible] Christ-centered. "I want my [illegible] to [illegible] a [illegible] role model [illegible] [illegible]. This scholarship [illegible] the world to me. [illegible] my degree and go start my career [illegible] that would let me give my daughter a better life."

Please keep these two women in your prayers. Pray they would have a [illegible] and be able to balance school and their busy family lives. Thank you for standing in our gap and continuing for Amanda and Chimey.

Amy Dolay, Client Support Services Director

A joyful reunion

You may recall the "Women Aid to Women" series in our October 2011 issue, which featured [illegible] Grant Carpenter. In that article, there was mention of Larry, a couple that [illegible] five children, [illegible].

For the past [illegible] years, Grant has led a Monday evening men's Bible study which Larry faithfully attended for [illegible] and spiritual [illegible]. In addition to fatherhood mentoring, Grant's wife, Trudy, [illegible] to Client Support where [illegible] Larry [illegible] weekly [illegible]. Grant and Trudy [illegible] prayed for Larry and [illegible].

Larry's wife, Sabrina, [illegible] person and [illegible] with her family. In July, [illegible] at Bridgehaven when Sabrina [illegible] Larry [illegible] to Grant and Trudy. Larry shared, "[illegible] for Sabrina to meet people that she did not know, yet [illegible]."

[illegible] of [illegible] at Bridgehaven [illegible] [illegible] them [illegible].

en conformidad con sus elevados principios. Por ejemplo, Abrahán conocía e invocaba el nombre divino y por eso nunca gozó de una buena relación con Dios, puso fe en él, confió en él y le obedeció. Así se hizo su amigo. De la misma forma, conocer el nombre de Dios nos acerca a él y nos ayuda a cultivar una relación personal con él, la cual nos asegura su amor (Génesis 12:8; Salmo 9:10; Proverbios 18:10; Juan 17:26; Santiago 2:23).

Las Santas Escrituras dicen que Jehová Dios siguió prestando atención y escuchando. Y un libro de recuerdo empezó a ser escrito delante de él para los que estaban en temor de Jehová y para los que pensaban en su nombre (Malaquías 3:16). ¿Por qué tenemos que pensar en el nombre más grande? El nombre Jehová significa literalmente "El Hace que Llegue a Ser". Ese significado presenta a Jehová como Aquel que se hace a sí mismo Cumplidor de sus promesas. Él siempre lleva a cabo sus propósitos. Es el Dios todopoderoso, el único Creador, poseedor de todo magnífico atributo. No existe una palabra que por sí sola exprese a la perfección su excelencia divina. Pero el nombre más grande de todos, Jehová, es que Él ha escogido para sí trae a la memoria todos sus atributos, cualidades y propósitos.

En las Santas Escrituras, Dios nos habla de sus propósitos para el hombre. Jehová Dios lo creó para que viviera feliz en el Paraíso eternamente. Su voluntad es que toda la humanidad componga una sola familia unida en amor y paz. El Dios de amor realizará su propósito en el Paraíso terrestre (Mateo 24:3-14, 32-42; 1 Juan 4:16-21). Dios explica el porqué del sufrimiento humano y muestra que la salvación es posible (Revelación [Apocalipsis] 21:4). En el Salmo 37:10, 11 leemos: "Solo un poco más de tiempo y el inicuo ya no será; y ciertamente darás atención a su lugar, y él no será. Pero los mansos mismos poseerán la tierra, y verdaderamente se hallarán su deleite exquisito en la abundancia de paz". (Véase también el Corán 21:105.)

Así es, Dios será conocido por su gran nombre. Los malvados tendrán que saber que él es Jehová. ¡Qué extraordinario privilegio es conocer el nombre más grande, dar testimonio de él y adherirse a él! De este modo se cumplirá en cada uno de nosotros el feliz propósito de Dios: "Porque en mí él ha puesto su cariño, yo también le proveeré escape. Lo protegeré porque ha llegado a conocer mi nombre. Él me invocará, y yo le responderé [...] Con largura de días lo satisfaré, y le haré ver la salvación por mí" (Salmo 91:14-16).

A menos que se indique lo contrario, todas las citas bíblicas están tomadas de la Traducción del Nuevo Mundo de las Santas Escrituras.

5 DEFAULT AND REMEDIES You are in default under this Agreement if you fail to make any required payment when due or within fifteen (15) days of the due date, you cancel your Customer Agreement, Verizon Wireless cancels your Customer Agreement for good cause, you breach any covenant, representation or warranty hereunder, or default in the performance of any other obligation which is not cured within ten (10) days after written notice to you; or Verizon Wireless terminates your Service for breach (each a Default). To the extent permitted by applicable law, upon a Default we or our assign Verizon Wireless have the right to require you to pay immediately the entire remaining balance in full under this Agreement, and to pay as actual and reasonable costs of collection

6. EDGE UP OPTION Subject to the terms in Section 2 above: If you pay us or our assign Verizon Wireless as applicable 50% of the total amount due under this Agreement and provided you have a good payment history and no outstanding balances on your accounts following the initial thirty days after your acceptance of this Agreement you can exercise an option to trade in your Device for an Authorized Replacement (as defined below) for a new device (your Edge Up option). To qualify you must both: (1) purchase a new device under a new Installment agreement or in conjunction with a new two-year Customer Agreement with Verizon Wireless; and (2) return your Device to Verizon Wireless in good working condition and without significant damage as determined by Verizon Wireless (for example, no cracked screen, no water damage, and the device must be fully operational). If you do not return your Device within 14 days of the receipt of your new device, or if you return a Device with significant damage or deemed not to be in good working condition you will be responsible for paying in full the entire remaining balance owed for your Device as the date stated on your bill. If you elect to ship your Device to Verizon Wireless while exercising the Verizon Edge Up option, you must follow the directions provided to confirm that your returned Device is in good working condition. Authorized Replacement means a Certified Like-New Replacement device provided by Verizon Wireless, a replacement device covered under an authorized Insurance program approved by Verizon Wireless, or an Apple Care replacement device

7 ASSIGNMENT We may, without your consent, and without giving you notice, assign or transfer this Agreement or any payment or any other sums due or to become due hereunder to Verizon Wireless. In such event our assign Verizon Wireless will have, to the extent transferred or assigned to it, all our rights, powers, privileges and remedies under the Agreement. You agree you will not assign this Agreement or any interest in it and will not sell or offer to sell or transfer or enter into any lease with respect to the Device covered by this Agreement without our or our assign Verizon Wireless prior written consent

8 ELECTRONIC ACCESS TO AGREEMENT By signing below you acknowledge that you have access to Verizon Wireless Website at www.verizonwireless.com where a copy of this Agreement will be available to you. If you want a paper copy of this Agreement, you may ask your sales representative to email or print a copy for you

IMPORTANT INFORMATION
ABOUT YOUR COX HIGH SPEED INTERNET SERVICE!

Dear Valued Customer

Cox continues to invest in our broadband network and we've increased the speeds of our High Speed Internet Preferred and Premier services for the 7th year in a row. As a result, we have been conducting an audit of compatible cable modems in our system.

Your modem has been identified as one of the modems that will no longer be compatible with our system as of August 31, 2010. As a show of our appreciation for being a valued Cox High Speed Internet customer we are providing you with a replacement modem free of charge.

This box contains your replacement cable modem. Please follow the enclosed instructions to activate your new modem. If you need assistance, please call 866.218.0763. **Please complete the modem exchange prior to August 31, 2010.**

We thank you for continuing to be a Cox High Speed Internet customer and look forward to serving you for years to come.

Best regards,

Cox Communications

hub [32][33]

The 2000s brought a new revitalization to Dayton's urban core. Fifth Third Field, home of the Dayton Dragons, was built in 2000. The stadium and team have been an important part of Dayton's culture, and won the nation's longest sellout streak in all professional sports it remains very popular in the Dayton region.[34][35] The Schuster Center, performing arts theater opened in 2003, providing a new arts venue for the city.[36] Along with these, Miami Valley Hospital expanded with a 12-story patient tower, and Five Rivers MetroParks expanded and added a bike hub and an outdoor entertainment venue for concerts downtown.[37][38] In 2010, the Greater Dayton Dayton Plan was introduced. The plan focuses on job creation and retention, infrastructure improvements, housing, recreation, and collaboration. The plan is to be implemented through the year 2020.[39]

Peace accords

Main article: Dayton Agreement

The Dayton Agreement, a peace accord between the parties to the hostilities of the conflict in Bosnia-Herzegovina and the former Yugoslavia, was negotiated at Wright-Patterson Air Force Base. Negotiations took place from November 1, 1995, to November 21, 1995, at Wright-Patterson Air Force Base, near to Fairborn, Ohio.

Richard Holbrooke wrote about this event in his memoirs:

> There was also a real Dayton out there...a charming Ohio city famous as the birthplace of the Wright Brothers. Its citizens energized us from the outset. Unlike the population of, say, New York, Geneva or Washington, which would scarcely notice another conference, Daytonians were proud to be part of its story. Large signs at the commercial airport hailed Dayton as the "temporary center of international peace." The local newspapers and television stations covered the story from every angle, drawing the people deeper into the proceedings. When we ventured into a restaurant or a shopping center downtown, people crowded around, saying that they were praying for us. Warren Christopher was given at least one standing ovation in a restaurant. Families on the air base placed "candles of peace" in their front windows, and people gathered in peace vigils outside the base. One day they formed a "peace chain," although it was not large enough to surround the sprawling, eight-thousand-acre base. Ohio's famous ethnic diversity was on display.[40]

Nicknames

Dayton's primary nickname is the "Gem City." The origin of the name is no longer clear, it appears to stem either from a well known racehorse named "Gem" that hailed from Dayton, or from descriptions of the city likening it to a gem. The most likely origin appears to be an 1845 article in the Cincinnati *Daily Chronicle* by an author writing with the byline "T" that reads:

> *"In a small bend of the Great Miami River with canals on the east and south, it can be fairly said, without infringing on the rights of others, that*

BLACKSTREET LYRICS

Send "Joy" Ringtone to your Cell

"Joy"

Can't forget the day
That you walked into my life
It was just the kind of thing
That was so right on time
After all the love changes
My heart had locked the door
Then that girl released her magic
And made me love once more, ooh

Like the warm rays of the sun
Her sweet love came shining down on me oh
All at once turned my life around
And with one kiss she set me free

[:] She's given me joy, joy, joy
That girl, she brings me joy
She's given me joy, joy, joy
That girl, she brings me joy

Goodbye sadness
And so long to my heartache
Now that joy has taken over
And settled in alive

Her love lifts me up
Like no other love before
With every beat of my heart
I'm hold holding on, hey

Just look what she's done for me
She's erased all the sadness away oh
I can never repay the least
Cuz she keeps loving me more and more

[:] She's given me joy, joy, joy
That girl, she brings me joy
She's given me joy, joy, joy
She brings me joy

She's given me

Check one, check two
Can't hold back, I'm in love with you
Check me, check two
There's nothing in the world that I won't do for you

Check one, check two
Can't hold back, I'm in love with you
Check me check two
There's nothing in the world that I won't do for you

That girl
She's given me joy, joy, joy
I love the way she loves me
She brings me joy

Presumably you want to test your fax machine by sending a fax from it and receiving a fax with it. Here's how to do both.

To test the send functionality of your fax machine, send a one page fax to 1 888-877 1655 (a toll free number in the United States.) When it's finished transmitting, point your web browser to Fax Toy — it's a fun web site that displays whatever is faxed to that number. Within a minute, your fax should appear on the site. Click the thumbnail to see a large version.

To test the receive functionality of your fax machine, point your web browser to FaxZero. This site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring — hopefully it will automatically answer and spit out the test fax.

General Recovery: Although the chart shows recovery as linear it is NOT necessarily so. Depending on the severity of the disease, progress of recovery by the addict (and/or partner) and slips or relapses, this chart often becomes more "circular" at times and stages may be repeated. It is common for individuals to experience slow movement and struggles during the first 2-3 years, especially for couples while trust is rebuilt and is no longer a major issue in the relationship (provided there are no slips or additional betrayal of trust, both large and small).

Q: Why are hawks such great football fans?
A: They're always watching the game on the field.

Q: What has more than a fish in a cot?
A: A frog — it croaks every night!

Q: Why are basketball players so spicy eaters?
A: Because they always dribble.

Q: How do you know when you've built a pirate ship?
A: When your feet smell and your nose runs!

Q: Why does Santa have so many grandsons?
A: So he can be "one-ho-ho"

Q: Why did the mouse dance on the peanut butter jar?
A: Because it was time to open.

Q: What did the salad say to the refrigerator?
A: Close the door, I'm dressing!

Q: What did one eye say to the other?
A: There is something between us! Just me?!

Q: What do tourists eat for breakfast?
A: Oak-meal!

Q: What lazy animal will you never fall and ask you?
A: An alarm duck.

Q: What do you get when you cross cassoe and a rose?
A: A cello-flower.

Q: What part of a hen has the most feathers?
A: The tail!

Q: Why weren't apples allowed on Noah's ark?
A: Only pears were allowed!

Q: Why did the little skunk listen to the big skunk?
A: Because it was a dor and wasn't!

Q: What kind of shirt can't have buttons?
A: A strand!

Q: What does a 2,000-pound mouse say?
A: More, kitty! Itty!

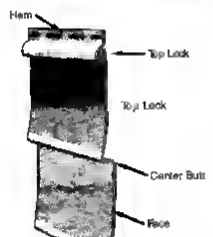
August 5 2015

Dear Valued Home Owner,

This notice is being sent to you in accordance with the requirements of the National Manufactured Housing Construction and Safety Standards Act TRUmh has determined that a defect may exist in your home. Our records indicate that the siding that was installed on your home at our home building facility may not have been installed correctly THUmh will correct this issue by repairing or replacing any improperly installed vinyl siding at no expense to you

The siding on your home was installed over an approved foam board underlayment. With this application our installers may not have properly secured the vinyl siding to your home The locations where the siding is improperly fastened can be determined by pulling on the siding at the top lock (see picture below) around the entire home If the siding at the top lock pulls away from the home more than one inch the siding in that location will need to be secured properly



If you find any loose siding on your home, please make a note of the location and contact us with the information listed below and we will schedule for one of our Customer Care Technicians to further inspect and repair your home accordingly Please note that the loose siding will not affect the performance of the weather proofing of your home in anyway

This printer is now ready for printing.

After this Quick Menu opens automatically

Quick Menu is a shortcut menu that lets you access functions you want to use with one click. You can access CREATIVE PARK PREMIUM the Online Manual etc

* The screen display varies depending on your printer

CREATIVE PARK PREMIUM ( )

You can download popular characters or artwork of famous artists and print them. **CREATIVE PARK PREMIUM is a premium content service available exclusively to customers who use genuine Canon ink for all colors**

Online Manual ( )

The Online Manual is an instruction manual on the website. It contains the latest information needed for operations such as printing. You can also use it for troubleshooting when problems arise.

* An Internet connection is necessary

We Recommend Using Canon Genuine Inks

Canon genuine consumables (inks / printing paper) are developed especially for Canon ink-jet printers. We recommend using Canon genuine consumables to maintain printer performance and ensure consistency

Your new CONCORD ceiling fan is now ready for use. Reset your circuit breaker and restore power to the current. See the Operation Instructions below to review the function of each control on your fan.

Operation Instructions

The pull chain located on the switch housing *(see figure 16)* controls the speed of your fan. When the fan is OFF, pull the chain once for HIGH speed, twice for MEDIUM speed, three times for LOW speed and fourth time to turn it off again.

The slide switch located on the switch housing *(see figure 16)* controls the direction of blade rotation. The UP position sets the blades in REVERSE rotation (air moves UP). The DOWN position sets the blades in FORWARD rotation (air moves DOWN).

Maintenance

Your fan requires very little maintenance. Cleaning of the housing should be done with a damp soft cloth (NO CLEANING AGENTS). On the blades, use a duster or dry cloth because any moisture could cause the blades to warp.

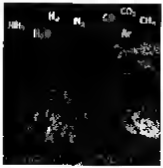
Figure 6
Auroras, such as this one seen above mountains in Alaska, occur in the ionosphere

Figure 7



A Early in Earth's existence, the atmosphere contained mostly carbon dioxide, nitrogen, and a few other trace gases.

B As Earth changed, so did the gases in the atmosphere

The ionosphere is where auroras take place

The ionosphere is also responsible for one of nature's most spectacular displays. Auroras can be seen encircling Earth's magnetic poles. Auroras are caused by energy that emerges from the sun. This energy ionizes atoms in the thin air of the ionosphere. Ionized atoms are atoms that have lost or gained electrons. Ionization causes atoms to emit photons, which are particles of light. The color of an aurora depends on which atoms in the ionosphere are ionized. The aurora shown in ***Figure 6*** appears in the sky above the Northern Hemisphere. This aurora is called the aurora borealis, or the northern lights. An aurora australis, or southern lights, is also observed in the sky above Antarctica.

Changes in Earth's Atmosphere

When Earth began to solidify about 4.4 billion years ago, volcanoes released a variety of gases. The processes that created an atmosphere of gases were different from those that are poisonous to us today. As shown in ***Figure 7A***, the atmosphere included hydrogen H_2, water vapor H_2O, ammonia NH_3, methane CH_4, carbon monoxide CO, carbon dioxide CO_2, nitrogen N_2, and argon Ar. It did not contain oxygen O_2.

Photosynthetic plants contribute oxygen to the atmosphere

Amazingly, life forms evolved that were comfortable in this atmosphere. Bacteria and other single-celled organisms called archaea were the earliest forms of life on Earth. Around 2.5 billion years ago, some cells developed a method of capturing energy from the sun and converting it into sugar that could be used as a food source. This process is called *photosynthesis*. Photosynthesis also produced oxygen as a by-product. These organisms needed only sunlight, water, and carbon dioxide to survive, so they thrived and multiplied in their environment. Gradually, the oxygen content of the atmosphere increased. Today, as shown in ***Figure 7B***, about 21% of the atmosphere is oxygen. About 1 billion years ago, the concentration of oxygen reached a level similar to what it is today.

Network Structure (Cont.)

- The most important set of protocols in the Linux networking system is the internet protocol suite.
  - It implements routing between different hosts anywhere on the network.
  - On top of the routing protocol are built the UDP, TCP and ICMP protocols.

Security

- The *pluggable authentication modules (PAM)* system is available under Linux.
- PAM is based on a shared library that can be used by any system component that needs to authenticate users.
- Access control under UNIX systems, including Linux, is performed through the use of unique numeric identifiers (uid and gid)
- Access control is performed by assigning objects a protections mask, which specifies which access modes—read, write, or execute—are to be granted to processes with owner, group, or world access.

Security (Cont.)

- Linux augments the standard UNIX setuid mechanism in two ways:
  - It implements the POSIX specification's under user-id mechanism, which allows a process to repeatedly drop and reacquire its effective uid.
  - It has added a process characteristic that grants just a subset of the rights of the effective uid.
- Linux provides another mechanism that allows a client to selectively pass access to a single file to some server process without granting it any other privileges.

Ways to Which an Employer Can Distribute the Rebate

If your group health plan is a non-Federal governmental plan, the employer or group policyholder must distribute the rebate in one of two ways

- Reducing premium for the upcoming year or
- Providing a cash rebate to employees or subscribers that were covered by the health insurance on which the rebate is based

If your group health plan is a church plan, the employer or group policyholder has agreed to distribute the portion of the rebate that is based on the total amount all of the employees contributed to the health insurance premium in one of the ways discussed in the prior paragraph

If your group health plan is not a governmental plan or a church plan, it likely is subject to the Federal Employee Retirement Income Security Act of 1974 (ERISA). Under ERISA, the employer or the administrator of the group health plan may have fiduciary responsibilities regarding use of the Medical Loss Ratio rebates. Some or all of the rebate may be an asset of the plan, which must be used for the benefit of the employees covered by the policy. Employees or subscribers should contact the employer or group policyholder directly for information on how the rebate will be used. For general information about your rights regarding the rebate, you may contact the Department of Labor's Employee Benefits Security Administration at 1-866-444- EBSA (3272) or review the Department's technical guidance on this issue on its web site at http://www.dol.gov/ebsa/newsroom/fr11-04.html

Need more information?

If you have any questions about the Medical Loss Ratio and your health insurance coverage please contact Blue Cross of California customer service toll-free at the number provided on your ID card

Contact your employer or Administrator directly for information on how the rebate will be distributed. For general information about your rights regarding the rebate if your group health plan is subject to ERISA, you may contact the Department of Labor's Employee Benefits Security Administration at 1-866-444-EBSA (3272) or review the Department's technical guidance on this issue on its web site at http://www.dol.gov/ebsa/newsroom/fr11-04.html.

The Radicalism of THE AMERICAN REVOLUTION

Alfred A. Knopf New York 1992

INTRODUCTION

We Americans like to think of our revolution as not being radical, indeed, most of the time we consider it downright conservative. It certainly does not appear to resemble the revolutions of other nations in which people were killed, property was destroyed, and everything was turned upside down. The American revolutionary leaders do not fit our conventional image of revolutionaries-angry, passionate, reckless, maybe even bloodthirsty for the sake of a cause. We can think of Robespierre, Lenin, and Mao Zedong as revolutionaries, but not George Washington, Thomas Jefferson, and John Adams. They seem too stuffy, too solemn, too cautious, too much the gentlemen. We cannot quite conceive of revolutionaries in powdered hair and knee breeches. The American revolutionaries seem to belong in drawing rooms or legislative halls, not in cellars or in the streets. They made speeches, not bombs, they wrote learned pamphlets, not manifestos. They were not abstract theorists and they were not social levelers. They did not kill one another; they did not devour themselves. There was no reign of terror in the American Revolution and no resultant dictator-no Cromwell, no Bonaparte. The American Revolution does not seem to have the same kinds of causes-the social wrongs, the class conflict, the impoverishment, the grossly inequitable distributions of wealth-that presumably lie behind other revolutions. There were no peasant uprisings, no jacqueries, no burning of chateaux, no storming of prisons.

Of course, there have been many historians-Progressive or neoProgressive historians, as they have been called-who have sought, as Hannah Arendt put it, "to interpret the American Revolution in the light of the French Revolution," and to look for the same kinds of internal violence, class conflict, and social deprivation that presumably lay behind the French Revolution and other modern revolutions. Since the beginning of the twentieth century these Progressive historians have formulated various social interpretations of the American Revolution essentially designed to show that the Revolution, in Carl Becker's famous words, was not only about "home rule" but also about "who was to rule at home."[1] They have tried to describe the Revolution essentially as a social struggle by deprived and underprivileged groups against entrenched elites.

But, it has been correctly pointed out, despite an extraordinary amount of research and writing during a good part of this century, the purposes of these Progressive and neo-Progressive historians "to portray the origins and goals of the Revolution as in some significant measure expressions of a peculiar economic malaise or of the social protests and aspirations of an impoverished or threatened mass population have not been fulfilled."[2] They have not been fulfilled because the social conditions that generically are supposed to lie behind all revolutions-poverty and economic deprivation-were not present in colonial America. There should no longer be any doubt about it: the white American colonists were not an oppressed people, they
